VOL. XXXVIII BELLEFONTE, PA., THURSDAY MORNING, NOVEMBER 22, 1906. No 498

DEATH OF A. O. FURST

Former President Judge of the Huntingdon-Centre District

DIED MONDAY NOON

One of the Leading Lawyers of Central Pennsylvania—A Polished Orator and a Deep Thinker

FUNERAL THIS MORNING AR 11 O'CLOCK

Hon. Austin O. Furst, a former Judge of the 49th Judicial District composed of Centre and Huntingdon counties and one of the foremost attorneys of Central Pennsylvania, died at his home on West Linn street, Monday, November 19th at 12 o'clock noon. His death was the result of a lingering illness which had as its beginning an operation performed in a Philadelphia hospital about two years ago.

In the death of Judge Furst, the town of Bellefonte has lost one of its most distinguished citizens, a man of natural ability, judicial learning and high personal characteristics.

Austin O. Furst was born in 1834, near Salona, in the portion of Centre county from which Clinton county was subsequently formed. His parents John and Barbara Furst, were descendants of that sturdy and courageous stock which had fearlessly penetrated the wilds of Central Pennsylvania at the dawn of the century, and his father having cleared a considerable tract of land in Lamar township, applied himself to agricultural pursuits.

After a preparatory course in the public schools of the vicinity, the future judge entered the Academy at Salona, where his industry and learning were early manifested. Under the personal direction of the President, Prof. H. M. McGuire, subsequently one of Philadelphia's most highly honored instructors, he was prepared for Dickinson Seminary at Williamsport, Pa., and was graduated from that institution in 1854, with the honors of his class. Afterwards he entered Dickinson College at Carlisle to complete his scientific and classical course, but illness compelled him to relinquish his studies, and to return home. The natural trend of his mind was toward the law, and accordingly, he entered the law office of his brother, Cline G. Furst, at Lock Haven, Pennsylvania, and was admitted to the bar of Clinton county in 1860. Immediately thereafter he removed to Bellefonte, and was admitted to Courts of Centre county on January 28, 1861 and has resided here ever since.

Judge Furst was married twice. His first wife was Mary Frances Sanderson, of Lock Haven, Pa. His present wife was Caroline Watson Chamberlain, of Milton, Pa. His children are: William S., of Philadelphia; John S., of Williamsport; Jane W., wife of John Curtin, James C. and Walter B., of Bellefonte. As a man of character, integrity and honor he early associated himself with the moral and intellectual forces of society. He became identified with the Presbyterian church at Bellefonte and has served continuously as an Elder since 1863. Ever interested in the education of the youth of the town, his zeal and efforts were readily recognized, and for nine years subsequently to 1865 he was President of the School Board of Bellefonte.

His sole pursuit has been his chosen profession. In thought, word and action his life has been devoted to an exhaustive study of the theory and practice of law and equity. Gifted with a retentive memory, possessing an analytical and a discriminating mind, careful in his premises, sound in his legal conclusions, a constant student of language and literature, endowed with persuasive oratorical faculties, he acheived many triumphs among the fellow members of the Bar, and in November 1884 was elected President Judge of the Forty-ninth Judicial District, and served the full term of ten years, ending January 1, 1895. As Judge he exercised a pronounced independence of character; he rigidly enforced the law restraining the sale of spirituous liquors, introduced many reforms in the administration of justice in his district and established precedents for facilitating the disposition of causes. Attentive during argument of counsel, quick of perception, skilful in discrimination, persistent in research, conscientious in his conclusions, conservative yet progressive in thought, Judge Furst's oral decisions were always scholarly, able and sound, while his many and important written opinions to quote a critic, "rank high in the judicial literature of the State." At the expiration of his term as judge he resumed the active practice of law at bellefonte and elsewhere. Within the entire domain of equity and law, civil, criminal and Orphan's Court, has he labored, frequently as counsel in action of ejectment, so as to be regarded one of the leading land lawyers of the State, again appearing before the State and national legislative committees in theological controversies in Presbyterian assemblages and in the Courts of the United States; in all issues, arguing with consumate skill, wide learning and signal success.

Funeral services were held this Thursday morning at 11 o'clock at the family home on West Linn street to which all friends were invited. Rev. J. Allison Platts, pastor of the Presbyterian church, and Dr. Wm Laurie, D. D. LL. D., officiated. After the services at the house the interment were private.

EDWARD F. MILLIKEN.

Who Died Suddenly in New York Hospital Saturday Morning Nov. 12.

Edward F. Milliken who is quite well known to many residents of Bellefonte, having been a relative of James and Marion Milliken, died a few days ago. The following particulars of his life and death are taken from the Daily Press, Plainfield, N. J., of November 12.

Edward Fullerton Milliken, vice-president and director of the Milliken Brothers steel manufacturing concern and a former local resident, died in the New York hospital, Saturday morning. He suffered an attack of appendicitis three weeks ago and was operated upon but complications followed, causing death.

Mr. Milliken was the son of Hettie Fullerton and the late Samuel Milliken and was born on Spruce street, Philadelphia, in 1864. In 1870 Mr. and Mrs. Samuel Milliken moved to Plainfield and purchased their home at 830 Central avenue, where Edward was brought up, and which his father and mother occupied until the death of the former in 1898. He was educated in the Plainfield schools and afterward attended Columbia University.

In 1879 he entered his father's business and two years later was admitted into partnership. About this time his brother, Foster Milliken, entered the business. In 1887 his father retired and Edward and Foster Milliken continued under the firm name of Milliken Brothers until January of this year, when, owing to the tremendous growth of the concern's output, they found it necessary to incorporate, which was done, the company being called "Milliken Bros. (Inc.)" At present they have just completed their large rolling mills at Milliken, Staten Island, where they occupy and own about 200 acres of ground for the steel works.

Edward F. Milliken did a large share in promoting the firm's standing and his activity, ability and fairness earned him the esteem and regard of both his employees and his many friends.

He was one of the organizers of the Boys' Club, now on Symacore street, and it was largely due to his interest and assistance that the club was able to continue its useful work. He was also interested in Muhlenberg hospital. He was married two years ago to Cecile Guggenheimer, of Lynchburg, Va., at St. Margarett's church, London, England, and his bride returned to New York, where she was taken ill, and Mr. Milliken devoted his whole time to his wife, giving up his business for two years and accompanying his wife to the various resorts recommended by her physicians. She died the 13th of last August, so that Mr. Milliken only survived his wife by three months.

Mr. Milliken was a civil engineer and a member of many clubs and societies, among them being the Metropolitan Museum of Art, the City Midday Club, the Municipal Art Society, the Chamber of Commerce, the Lawyers' Club, the University Club, the Racquet Club, the Larchmont Yacht Club.

He is survived by his brother and his mother, Mrs. Samuel Milliken, who resides with her daughter and son-in-law, Mr. and Mrs. James W. DeGraff, of Central avenue.

LOST—A lap robe somewhere between Bellefonte and Jacob Hoy's on the road to State College. Finder please return to James Gault, Bellefonte.—D-1w R-1t

A BOMB IN ST. PETER'S

A Dastardly Deed in a Famous Church

NO SERIOUS FATALITIES

A Scene of Indescribable Confusion Followed Explosion and Grave Disaster was Narrowly Averted.

THE BOMB WAS FILLED WITH NAILS

Rome, Nov. 19.—A bomb exploded in St. Peters. The edifice was crowded, and an indescribable scene of confusion followed. There were no fatalities. As soon as the echoes of the tremendous roar had ceased a canon sought by reassuring words to quiet the people, but in vain. They fled in all directions and a number of women fainted. Women and children screamed and men tried to protect their families in the crush. The church is so large, however, that there was ample room for the crowd to scatter and no one was injured. No trace of the perpetrator of the deed has been found.

Since St. Anacletus, who was ordained by Peter himself, erected an oratory in 90 A. D., on the site of the present basilica to mark the spot where the remains of St. Peter are buried, no such dastardly occurrence is noted in the annals of the church.

Panic Followed Explosion.

Sunday was the anniversary of the dedication of the basilica to St. Peter, and it was beautifully decorated for the occasion. Holy relics were exposed and a large number of the faithful attended the services. Cardinal Rampolla, formerly papal secretary of state, was among those present and took part in the service in the choir chapel. The last mass had just been concluded when the explosion occurred and only one canon, who had not quite finished, remained at the altar of St. Petronilla. This altar is at the end of the right aisle, and it was near here that the bomb had been placed. As the canon turned to bless the communicants there was a tremendous roar, which echoed through the lofty arches of the immense dome like a thunder clap. At the same time a dense smoke spread throughout this portion of the basilica and a strong odor of gunpowder filled the air. Confusion and panic at once seized the people. The canon at the altar tried to stem the tide of fear. He shouted out: "Do not be afraid; it is nothing, merely the noonday gun." His words, however, had little effect. They were refuted by the smoke and the pungent smell of powder, and the people continued their headlong flight. Chairs were overthrown, making the confusion more serious. Men and women fled, stumbling in all directions, the screams of children and cries of anguish were heard on all sides, and for a few moments it seemed as if nothing could obviate a grave disaster. The vast size of the church, however, gave room for the crowd to scatter, and at the end of a few moments the people were surging toward the doors, excited and nervous, but orderly.

As soon as the smoke cleared away a hasty examination showed that nobody had been hurt in the crush, and furthermore, that no one had been wounded by the explosion. Calm was gradually restored and people returned to view the extent of the damage.

Was Placed Under Scaffolding.

It was discovered that the bomb had been placed under a scaffolding which had been erected to facilitate repairs to the roof exactly over the celebrated tomb of Clement XIII, by Canova, which consists of a figure of the pope and two lions, and which is the most remarkable piece of sculpture in the basilica. When the first gendarmes reached the spot the scaffolding was found to be smouldering, but this fire was easily extinguished. The tomb was found to be absolutely uninjured, and even the pavement shows scarcely any signs of the explosion. An examination of the remains of the bomb leads to the supposition, unless it was crudely prepared on purpose to mislead, that it was manufactured in the country and brought into Rome. It is believed that the bomb had a very long fuse, in order to enable the criminal to gain the piazza before the explosion. It has been impossible to trace him, and no one has any recollection of seeing a man who, by his movements, might have aroused suspicion.

Pope Heard Explosion.

The pope was engaged in his regular noon-hour devotions when the bomb went off. He heard a muffled sound which surprised, but did not alarm him. Monsignor Misciatelli, sub-prefect of the apostallic palaces, and Monsignor Bisleti, major domo of the Vatican, at once hurriedly entered the pontiff's chamber. They were so pale that the pope immediately asked, "What has happened?"

"Do not be alarmed, holy father," was the answer. "A bomb has exploded in the Basilica, but fortunately there are no deaths to deplore, and no one has been wounded."

The pontiff asked anxiously if the church had been injured. Upon being reassured, he fell on his knees, saying he must implore mercy for the misguided perperator of the deed.

Soon after this announcement was made to him the pope went to the throne room, where he admitted to pripave audience Mgr. Kennedy, rector of the American College, who presented to his holiness Mr. and Mrs. Louis J. McCloskey, of Philadelphia, and Mr. Paul S. King, of New York, who noticed that the pope was pale and labored under some emotion. After this reception the pope proceeded to the hall of the consistory, where he received about 200 persons, including 25 students of a South American college, to whom he delivered a short address. None of these persons knew anything of the explosion.

Bomb Was Filled With Nails.

Every piece of the bomb that could be found was gathered up by the police and carefully examined. The bomb evidently consisted of a large tin box, bound tightly together with wire of two sizes. It must have contained over two pounds of gunpowder and three pounds of nails. The nails were of three sizes, some seven inches long and so heavy that the force of the explosion threw them but a short distance. The nails were enveloped in newspapers of the dates of November 16 and 17.

A three days' service of prayer will be celebrated in all the churches in expiation of this offense to religion.

St. Peter's is the greatest basilica in Christendom. It took 350 years in the building, and stands today a result of the efforts of 42 popes, and the genius of Michael Angelo, Bramante and Rafael. The commission of such an outrage in such a place has called forth unlimited condemnation and is characterized as proving that the perpetrators of the crime were actuated by feelings worse than those which moved the vandals and the Saracens.

W. GALER MORRISON.

Ex-Recorder of Centre County Dies at Roland.

On Friday evening at 7 o'clock W. Galer Morrison died at his home in Roland, Centre county, after an extended illness. His death was due to that scourge of our northern clime consumption.

The deceased was born in Port Matilda, November 15, 1860 making his age at time of death 46 years, 10 months and 1 day. He was the son of James and Sarah Jane Morrison. In his younger days he taught school and a few years ago served two terms as Recorder of Centre county. After retiring from the Recorder's office he went to Curtin's Works or rather Roland where he went into the mercantile business and at the time of his death was head of the firm of Morrison & Glenn. He also served several terms as a Justice of the Peace.

He made an excellent public official and as a citizen was honest and upright in all his dealings with his fellowmen. He leaves to survive him a wife and one child.

The funeral took place Monday morning at 10:30 o'clock from his late residence. Interment in the Union cemetery.

Pennsylvania Day at State College.

Pennsylvania day, November 23, 1906, will be observed at State College, in the auditorium at 10:30 a. m. Addresses will be delivered by the Hon. Robert S. Murphy, lieutenant governor-elect; the Hon. Henry Houck, secretary-elect internal affairs; Miss Kate Cassatt MacKnight, president state federation Pennsylvadia women and the Hon. W. B. Simpson, house of representatives. From 12.20 to 1.30 p. m. luncheon will be served at McAllister hall for guests of the college; 2 to 2:30 review of the Cadet battalion; 3:00 foot ball, University of West Virginia against State, on Beaver field.

A special train will leave Bellefonte for the college at 9.25 o'clock on the morning of the 23rd, arriving in time for the exercises in the auditorium and returning at 3:15 p. m.

All college buildings will be open to visitors from 9 to 11 a. m., and from 1:30 to 5 p. m.

OUR BOROUGH FATHER'S MEET

And Hold Their Regular Semi-Monthly Session

IMPORTANT MATTERS

That Demanded the Attention of the Local Law Makers—Fire Marshall Submits a Report.

MANY SIDE-WALKS NEED REPAIRS

The regular semi-monthly session of the borough council was held on Monday evening with President Keller in the chair and the following members present: Kirk, Shuey, Wagner, Seibret, Keichline, Hamilton and Brown.

The Street committee reported the lowering of the walks on Curtin street at residences of Frank Warfield and Mrs. Merriman.

Water committee reported various repairs at Water works. Meter bills for the October quarter were turned over to Collector W. A. Isbler amounting to about $840.

The Villiage Improvement committee reported having taken up the matter of posting bills on telephone, electric light and telephone poles. The companies are heartily in favor of council taking up the matter looking to the prohibiting of the posting of bills on the poles. The Burgess will be notified to take some action to prevent it in the future.

The council is considering the matter of extensive repairs to the lock-up which at present is in a bad condition. Mr Seibret presented a proposition from a business firm in the city to furnish six steel cells of modern construction at a cost of $280. The matter was held over for further consideration.

Chairman Kirk of the Street committee reported that the telephone pole at the Centre station had been removed to a place agreed upon, which is west of the point where it originally stood.

The walks in front of some of the properties on East Curtin street are in a frightful condition and are a menace to life and limb. The property owners are to be notified to repair these walks at once.

The crossings on the Diamond are in an awful condition. Pedestrians wade through mud ankle deep in crossing them.

Mr. Hamilton moved that catch basins with traps be placed in the sewers on Bishop street at Bauer's corner and Brant House corner. The motion was seconded by Mr. Brown. After considerable discussion the motion carried Dr. Kirk voting No.

The residents of Burrow street asked for an incendeecent light on their street. Referred to Street committee for investigation and report.

Fire Marshall John J. Bower made the following report which was referred to the Fire and Police committee.

To the President and Members of the Council of the Borough of Bellefonte.

DEAR SIRS:—

After having made a careful investigation of the equipment of the Borough Fire Department, I beg leave to report that I find the Department has on hand in good condition 1600 feet of 2½ inch jacket hose. In addition the Department has about 500 feet of 2½ inch jacket hose in fairly good condition, which same might in a case of emergency do effective service, but could in no way be depended upon. There is an additional 250 or 300 feet of 2½ inch jacket hose in the Department which may be classed as bad; and the entire value of which consists in the couplings. By the use of the couplings on this bad hose for patching and repairing purposes, it is likely that about 150 or 200 feet of the fairly good hose could be placed in such condition that it would give several years service almost equivalent to that of the best hose now in the Department. The outlay for such repairs I believe would be somewhere in the neighborhood of $50.00, and probably not that much. The chief expense for such repairs would consist in the payment of the time for men necessarily employed on this work, the material itself not costing over ten or twelve dollars.

After a careful consideration of the requirements of our Department, I would recommend that the Borough purchase at least 500 feet of 2½ inch jacket hose, to be divided 300 feet to the Undine Company and 200 feet to the Logan Fire Company. A careful investigation of the merits of the different brands of fire hose, together with our experience with the hose used in our Department, I would recommend that a wax gum-treated hose manufactured by the Fabric Fire Hose Company of New York City be purchased. This is the hose which has been in constant use in our Department for twelve years or more, and has proven entirely satisfactory. This hose is sold under a guarantee of five years, and I beg to herewith attach a bid from the General Agent of the Company, which has been forwarded to me for presentation.

I would further recommend that at least one and better two three-gallon chemical fire extinguishers of an approved design be purchased for use on the hose wagon of the Undine Fire Company.

Furthermore the efficiency of the Department could be, I believe, materially improved by complete addition of relief valves and shut-off nozzles, and a 3 way deluge set. This would be at an expense of from two to three hundred dollars, and while it would undoubtedly be a benefit not only to the members of the Department in easy handling fire streams but would be a saving in water loss on inside fires, yet I do not deem it of such importance that the same should be added if the finances of the Borough do not warrant the additional expenditure. The recommendation as to the purchase of hose and of the chemical extinguishers, I believe absolutely necessary and would urge upon council that the same be secured.

All of which is respectfully submitted.

JOHN J. BOWER.
Fire Marshall.

Nov. 19, 1906

The following bills were approved and orders drawn:

Police Pay Roll	50.00
S. E. Showers	1.75
Crider & Son	24.35
Street Pay Roll	43.25
J. T. Mitchell	25.00
Water Works Pay Roll	60.25
A. Allison	26.66
Pennsylvania Railroad	1.21
Junes Speeding Co., oil	7.32
	$239.79

Large Legacy Awaits Former Servant Girl.

A fortune of $100,000 awaits Miss Helena Welsh, who five years ago left Scranton and since then has been lost to her relatives.

Unless she is found within the next six months, the entire fortune, which is a legacy from her uncle, the late Robert Welsh of Decatur, Ill., will be turned over to a hospital at that place, under the terms of the will.

While Miss Welsh was born in Philadelphia, the most of her life was spent in Scranton. When she was 10 years old both of her parents died and she went to Scranton.

Six years ago she entered service as a domestic with a family by the name of Manse. A year later she left the Manse home, Manse also disappearing mysteriously. Nothing has since been heard from either of them.

New Dean at State College.

Professor Thomas F. Hunt, of Cornell University, has been elected dean of the school of Agriculture and director of the State Experiment Station at State College at a meeting of the Executive Committee of the Board of Trustees. Prof. Hunt was a number of years ago professor of agriculture there, going from that place to the Ohio State University, and from there to Cornell. He is considered one of the brightest men in the agricultural line in his profession.

State College will this year be represented in the intercollegiate debate by the following men: F. W. Groff, '07; W. F. Wentzel, '08; H. M. Brancher, '08; and A. L. Borland, '09. They were elected out of a team of fourteen contestants and are the same men who won the intercollegiate debate for State College last year.

Editor Accepts Position Under Uncle Sam.

Charles Suiter, who has ably filled the position of city editor of the Lock Haven Express for over two years, will sever his connection with that journal on Saturday, to go into the service of Uncle Sam, he having received an appointment under the United States civil service commission in the Bureau of Animal Industry, with headquarters at Pittsburg, in connection with the Union stock yards. Mr. Suiter will leave Monday to assume his new duties, and will carry with him the best wishes of his many friends. Occupying as he has, a leading position in church and musical circles in this city, he will be greatly missed from these spheres of usefulness.—Lock Haven Democrat.

DIVORCE BILL FINISHED

National Congress Ends Work by Drafting Uniform Measure.

WILL BE SENT TO LEGISLATURE

Few Changes Were Made In Bill As Originally Drafted, and Various States Will Be Asked to Make It a Law.

Philadelphia, Nov. 15. — The National Congress on Uniform Divorce Laws ended its work after having adopted, with few changes, the entire uniform divorce bill as originally drafted by the committee apopinted at the first meeting held in Washington.

The meeting was closed by Bishop William Doane, of Albany, who said the congress should be set aright before the public, because the people might get the idea that all causes approved by the congress should exist in every state. He explained that the congress merely drafted a law containing the principal causes recognized in a majority of states. These causes he hoped to see decreased.

The sections of the divorce bill adopted were No. 4, covering the causes for divorce from bed and board. They are adultery, bigamy at the suit of injured party to first marriage, conviction and sentence of two years for crime, extreme cruelty on the part of husband or wife to such an extent as to endanger life of either or render cohabitation unsafe, wilful desertion for two years, habitual drunkenness for a like period, hopeless insanity of the husband.

No. 5, which provides no decree shall be granted if suit has been brought by collusion or procured or connived at offense charged, condoned it or has been guilty of adultery not condoned.

No. 6, which relates to jurisdiction to be acquired by personal service in actions for annulment or divorce, and is aimed to minimize migratory divorces; also that hearings and trials must be public and had before a court and not before a master or referee.

The remaining sections and articles refer to proof, the impounding of records, which shall not be allowed; rules for decrees and appeals, together with the legitimacy of children.

The most radical action which the congress was asked to take, but which was defeated, was the incorporation of a provision requiring judges to turn over evidence in suits to the prosecuting attorney for action against the party to the divorce for the crime or offense on which the decree was granted.

The committee which drafted the original bill will remain in existence and use its efforts to have the bill passed by the various state law makers.

RUMOR STARTS RUN ON BANK

Savings Concern at New Brunswick, N. J., Paying Depositors On Demand.

New Brunswick, N. J., Nov. 15.—From some unknown source a rumor was started here that the local savings bank was in trouble, and a run was started, hundreds of people demanding their money upon presentation of their bank books.

The run caught the bank officials unawares, and they had nearly exhausted their currency, when they obtained about $75,000 more, and with this they paid off the depositors as fast as they could hand out the money. The bank has about $4,000,000 on deposit and is managed by some of the best known men in the city. At present there is a surplus of about $400,000.

Doctor Kills Himself.

Atlantic City, N. J., Nov. 15. — Dr Robert Craig, prominent in medical circles of Pittsburg, committed suicide here by shooting himself. He had been suffering from nervous breakdown and came here in August with his bride of six months in the hope of regaining his health. Dr. Craig arose and went to a bathroom adjoining his apartment and fired a bullet from a revolver into his heart. Mrs. Craig was aroused by the report and found the body. Dr Craig was 31 years of age.

THE BARK OF TREES.

Nature's Provision For the Relief of the Growing Plant.

The practical cultivator understands that nature makes provision for getting rid of the bark of trees as the trunk increases in size. On the growth of the past season may be seen small olive spots. These are formations of cork. From year to year, in subsequent development, these little patches spread, really eating their way through the bark. This is the provision which nature makes for finally rifting the bark in each species of plant. These cork cells have their own special lines of development, and this is the reason why each kind of tree has its own particular bark. The characteristics are so prominent that clever observers can select different kinds of trees by their bark even at midnight. As it is the evident intention of nature to get rid of old bark, it is a great help to the tree to assist nature in this respect, and any wash or treatment which aids the plant in getting rid of it is a practical advantage. Soapy water wash or lye water is useful, and even scraping has been found of great advantage. In a rough sort of way lime wash is frequently used, the only objection being the white and glaring color. It is, however, the cheapest and the best of all bark treatment.

RAILROADERS PRESS DEMANDS,

Lackawanna Engineers Get Increase and Erie Firemen Vote to Strike.

New York, Nov. 13.—The scale of wages and the length of the work day were the issues at various meetings of grievance committees representing the engineers and firemen of several of the railroads centering at New York.

At a conference between President W. H. Truesdale, of the Delaware, Lackawanna & Western, and a committee of the Brotherhood of Locomotive Engineers, including Grand Chief Warren H. Stone, the engineers were granted a 10-hour day and increases in wages aggregating for the 900 engineers $30,000 to $35,000 a year.

Committees representing the engineers of the New York, New Haven & Hartford and the New York Central railways met to discuss the demands they are to make upon these two lines for higher wages and shorter hours of labor.

The poll of the locomotive firemen of the Erie railroad, which is being taken for the purpose of determining whether or not to resort to a strike in an endeavor to enforce their demands, according to Grand Master Hannahan, of the firemen's organization, resulted in an almost unanimous vote in favor of a strike, so far as returns have been received.

Switchmen Accept 4 Per Sent. Raise.

Pittsburg, Pa., Nov. 13.—Announcement was made that the switchmen had agreed to accept the advance of four cents per hour as offered last week in Chicago by the railroad officials, and it is asserted that there will be no strike. Representatives of the firemen and engineers met at the Seventh Avenue hotel in this city to discuss the wage question, but no definite action was taken.

$8,000,000 FOR NEW EQUIPMENT

Rock Island Railroad Places Large Orders For New Cars.

Shicago, Nov. 13.—The management of the Rock Island railroad, it was announced, has issued orders for new equipment to cost $5,000,000. This is in naddition to orders previously given this year aggregating $3,000,000. Included in the new equipment are 2000 40-ton box cars, 250 stock cars, 1000 ballast cars, 650 coal cars, 300 flat cars, 2540 hopper cars and nearly 100 passenger, postal and baggage cars. All the new passenger cars are to have steel underframe construction, and the new mail cars are to be all steel.

Pennsy Orders 550 New Cars.

Philadelphia, Nov. 13.—Six hundred steel passenger cars are to be built for the Pennsylvania Railroad company in the next year. Space for 550 cars has been reserved with the American Car & Foundry company, and 50 cars will be constructed at the Altoona shots of the railroad company. The total cost is estimated at $6,000,000. The order to the American Car & Foundry company will be divided so as to include coaches, baggage, express and mail cars. The company has also ordered 25 new freight engines. These will be built at the company's shops at Altoona.

N. J. RAILROAD TAX VALID

State Supreme Court Upholds Law Taxing Them at Local Rates.

Trenton, N. J., Nov. 13. — The supreme court rendered a decision holding to be constitutional the law of 1905 providing for the taxation of second class railroad property at local rates, familiarly known as the Duffield law. The court bases its conclusions on the former decisions with respect to taxation of railroad property.

The court also declared constitutional the law of 1879 providing for the appointment of a commission on the petition of 25 property owners to investigate the affairs of any county or municipality.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, *with alcohol*.

The "Golden Medical Discovery" is a scientific preparation compounded of the glycerin extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

The New Uniform Primary Election Law Now in Force.

The uniform primary law is now in operation in every election district in the state. Under this new sytem of making nominations, county voters of all parties will vote direct and on the same day for their choice of candidates.

With unifrom primaries in force, the time honored county and city convention is a thing of the past. Slate making by political bosses becomes exceedingly difficult if not impossible. The law was framed with the object in view of affording the people the means for determining for themselves who shall be their candidates. The holding of such primaries to choose candidates to be voted at the February election will mark the first practical test of the new law in the state at large.

DATES FOR ELECTIONS.

The uniform primary law was one of the several election reform measures passed at the special session of the legislature. It provides that there shall be two primary elections held each year. For the coming February election the primary shall be held on the fourth Saturday preceeding election day, which will be January 26th. For November elections the primary shall be held on the first Saturday in June, except when a president is to be elected, when the primary shall be held on the second Saturday in April. That for February elections is termed the winter primary, and for the November elections, the spring primary.

Heretofore, the several parties have held their primaries on separate days. Under the new law one primary will be held for all parties between the hours of two o'clock p m. The primary will be held at the regular election polling place in each district, and will be conducted by the regular election officers.

In the first place any number of persons may be voted for at the primary for an office to be filled at the next succeeding election. The law provides that there shall be an official ballot for the primary. This will be alike in size and color for all parties. All official ballots will be printed on white paper. Each party will, however, have its own ballot. At the top of each ballot there will be found a printed line designating which party it is for, and full explanation as to how to properly mark the same.

If a candidate for mayor, for instance, desired his name printed on the Republican primary ballot, this will be done upon the filing of a petition with the county commissioners signed by fifty Republicans. If a Democrat wishes his name printed on the Democratic primary ballot as a candidate for mayor he may have this done by having filed a petition signed by the fifty Democrats. Likewise a member of any other regularly constituted party.

For candidates for council who wish their names printed on the primary ballot, petitions need be signed by but ten members of the parties designated.

MUST FILE NAMES EARLY.

These petitions must be filed with the county commissioners at least three weeks prior to the primary, or in this instance, not later than January 5th. At least once each week during these three weeks the county commissioners must advertise in two newspapers within the county the names of all offices for which nominations are to be made. At the expiration of the time fixed by law for receiving petitions the county commissioners are required to take these in hand and proceed to the preparation of the ballot for each party. After these are prepared they must be kept on file and open to public inspection in the commissioners' office for at least one week preceding the primary.

When the voter goes to the primary on January 26th he must ask for the ballot of his party. Unless his right to participate is challenged he will be handed a ballot, where he will find printed the names of all candidates arranged in alphabetical order under the respective offices.

Additional Sunday Train Service.

Though the announcement has not yet been officially made it is stated on pretty reliable authorities that Bellefonte is to have the advantage of increased Sunday train service on the Bald Eagle Valley railroad. When the winter schedule is arranged and put in effect, which will be about the last Sunday in November, it will provide for a train west in the morning and east at night, running on the schedule of the 9:23 a. m. west and 8:16 p. m. east at the present time. This will enable persons coming from the east to leave Philadelphia about noontime and get home that evening, and to leave here at 8:16 and take a sleeper in Lock Haven for the east.

Death of John Ross

John Ross, a well known citizen of Linden Hall, died Wednesday morning at the residence of his son, James at the ripe old age of 82 years. He comes from one of the old pioneer families of Centre county.

The funeral will take place Saturday morning. Interment at Linden Hall.

Sunday Afternoon.

No one who rightly understands the bent of inclination in human nature and the clearly revealed teachings of Holy Scripture will urge any objection to Sunday dinners. There is no word in the Fourth Commandment against a suitable dinner for the Sabbath day. It is not forbidden in any teachings of the Lord Jesus Christ. He says, "It is lawful to do good on the Sabbath days." Mark 3:4 In both Testaments the Bible teaches us that whatever is necessary or merciful, is lawful to be done on the Lord's day.

It is more than a mistake for any one to say that the Committee for the furtherance of Sabbath observance in Bellefonte is opposed to a wisely prepared dinner for Sunday. All parents should endeavor to make the Sabbath the best day in the week for their families. Generally speaking, all parents have it in their power so to provide requiring little time and strength spent over a hot cooking stove, especially in the summer months.

There are plentiful good things that will keep over Saturday night suitable for Sunday dinners. Our bakeries and fruit stores can always furnish quite a variety of goodies without "the necessity for Sunday delivery". The children will easily learn to look forward to Sunday with anticipated pleasure. Get something a little out of the ordinary for food. If possible, place on the clean table cloth a bouquet of flowers, ever so small, which will serve the purpose.

To keep the youngsters healthy and happy, watch them closely lest they eat or drink to excess.

Before the dinner is quite finished, tell a good story, something funny happening during the previous week, so that all can laugh right heartily, according to Solomon's wise counsel in Proverbs 17.22.

Of all the good deeds done in this world, nothing could be more in place for all enjoying the bountiful God-given meal then rise from the table singing one verse or more to the praise of "our Father in Heaven" the giver of every good and perfect gift."

After such a dinner, ask the children which is the best day in the week. Every one of them will answer 'I like Sunday the best." Grandpa and Grandma will be made the happier by Sunday dinners prepared in this way, strictly "according to the Holy Scriptures." There are thousands of working-men away from their families six days in the week. Except on occasional holidays, the Sabbath is the only day they can spend with the loved ones and the little ones at home. Some of these men are my neighbors. I am glad to testify that they always try to provide some little tasteful extras for Sunday dinner. They do wisely and scriptorally by so doing.

With this lawful feasting and needed resting, it is hardly necessary to say, that these working-men so called (the Bible teaches that all men ought to labor six days in the week) should always spend at least one hour of the sacred time with their families, in Divine worship, to "Praise God from whom all blessings flow."

THE above picture of the man and fish is the trade-mark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

The Kind You Have Always Bought
In Use For Over 30 Years.
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

"The Kingdom of God, is not food and drink, but righteousness and peace and joy in the Holy Ghost." Rom. 14:17 Let no one say that Sabbath observance committee of Bellefonte, in this view of the subject, favors Sunday visiting for the pleasure of Sunday feasting. For mere worldly enjoyment leaving the sacred precincts of home and public worship in the House of God on the Lord's day, there can be no lawful or reasonable excuse for this most questionable practice. In this movement to secure a more sacred regard for the Lord's Day, our Committee stands unmovable on the God-given Commandment 'Remember the Sabbath day to keep it Holy; six days shalt thou labor and do all thy work."

We are operating directly in accord with natural law and civil law, as well as the Divine law. It is clearly revealed to us that the position we occupy is "on the Lord's side." 'If God be for us, who can be against us." Rom. 8:31.

His Honey Accounted For.

A New Hampshire newspaper man who is very fond of honey visited a nearby city and at one of the hotels he was served with some delicious honey. He enjoyed it so much that he told his wife all about it when he returned home.

On his next trip to the city his wife, accompanied him. They visited the hotel, and when the noon meal was being served he said to his wife he hoped they had some more of the honey.

It did not appear, however, and, beckoning to a waiter, he said: "Say, Sam, where is my honey?"

He was almost paralyzed when that worthy grinned and replied: "She doan work here no more, boss; she done got a job at de silk mill."

The wife received a handsome new dress before they returned home, after making a solemn promise not to tell the story.

Jilted, Arrests Girl for $114 he Advanced,

Alleging he had been jilted by her after he had advanced $114 to buy a wedding trousseau, Lloyd Raybuck, a young bank clerk at Westland, near Washington, Pa Wednesday, caused the arrest of his sweetheart, Miss Bernice Jackson, and her mother Mrs. Louisa Jackson, charging the former with defrauding and her mother with conspiracy.

Raybuck is but 21 and the girl three years his junior. He avers that after Miss Jackson became engaged to him he gave her the $114 to buy her wedding finery, the date for the marriage having been set. He says when the girl and her mother had the money they called off the marriage and refused to return his coin.

The two women were lodged in jail, but later released on bail. Miss Jackson says she will marry Raybuck if her mother consents.

"A Bad Day."

Yesterday, cloudy, drizzly, snowy, really stormy, I heard so many persons say, "a bad day," "awful day," "miserable day," I wish to have my say, which I think, no one can gainsay, that the Good Being never sends to us a "a bad day" whatever the weather may be yesterday was a good day for the farmers; good day for their winter wheat and late pasture. Good for them, then it's good for the rest of us. I did talk back a little to an interesting couple of young people saying to me, "Isn't this a miserable day?" I replied God never sends us a bad day of weather. "What do you know about the hurricane day, the cyclone day, the frightful flood day?" We don't know all about it; "only in part." Such days may be sent to sweep away and destroy the germs of disease that would otherwise have caused an epidemic of diseases entailing sickness, suffering and death on every side. No one can deny that there could be something very much worse which these "damaging destructive calamities" were sent to prevent. So I repeat it, the Good Being never sends "a bad day" of weather whatever, wherever or whenever, "awful and miserable," no never.

MISSIONER.

Turns Up After 44 Years.

Jeremiah Rader, formerly of Forest Hill, Union county, who has been missing since the battle of Antietam, on December 17, 1852, has just returned home. His relatives failed to recognize him, and it was with some difficulty that he established his identity. He had been considered dead by his family for nearly forty-four years. Following the battle of Antietam, Rader was never heard from.

Army officials attempted to learn his whereabouts and he was finally listed among the unknown dead of that great conflict. Instead of returning home he wandered about, finally going to Europe, where he remained for years.

Later Rader returned to America and settled in California. His return was the cause of great rejoicing.

—The new Pure Food and Drug Law will mark it on the labels of every Cough Cure containing Opium, Chloroform, or any other stupifying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoope all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable Cough Cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. Green's Pharmacy Co.

Hints On Health And Beauty

A valuable treatise on beauty hints and complection secrets comes free inside every 25 cent package of laxakola tablets, a tonic laxative containing extract of dandelion and cascarin for the skin. C. M. Parrish

—Bilious? Feel heavy after dinner? Tongue coated? Bitter taste? Complexion sallow? Liver needs waking up. Doan's Regulets cure bilious attacks 25 cents at any drug store.

No danger of consumption if you use Foley's Honey and Tar to cure that stubborn cough.

Pneumonia Follows a Cold

but never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and prevents pneumonia. C. M. Parrish.

—When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips meant feverishness, and are as well ill appearing. To have beautiful pink, velvet-like lips, apply at bedtime a coating of Dr. Shoop's Green Salve. It will soften and heal any skin ailment. Get a free, trial box, at our store, and be convinced. Large nickel capped glass jars, 25 cents. Green's Pharmacy Co.

Foleys Honey and Tar cures coughs and colds and prevents pneumonia. Take no substitute. C. M. Parrish.

Dairy and Food Commission's Report

The Minnesota Dairy and Food Commission's analysis shows that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contained opiates and croton oil. Opiates are poisons and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. C. M. Parrish

—Impure blood runs you down—makes you an easy victim for organic diseases. Burdock Blood Bitters purifies the blood—cures the cause—builds you up.

Cured of Bright's Disease

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taked the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." C. M. Parrish.

DeWitt's Little Early Risers
The famous little pills.

—A cold is much more easily cured when the bowels are open. Kennedy's Laxative Honey and Tar opens the bowels and drives the cold out of the system in young or old. Sold by C. M. Parrish.

The Cheerful Idiot.

"What is the difference," began the Cheerful idiot, while everybody else began shoving back from the table hastily and wadding up their napkins.

"What is the difference, he hastened on lest he might waste his sweetness on the desert air, "between Anna Katherine Green's best detective story and John D. Rockfeller III?"

Several persons looked malignantly in his direction, but none answered. So the Cheerful Idiot went calmly ahead with his answer.

"Because one is 'the Millionaire Baby' and the other is a billionaire maybe."

A Tender Conscience.

Nora had been told to say at the door that her mistress was not at home when certain callers appeared upon the scene. It evidently went much against the grain for her to make herself responsible for even so small a white lie, but she promised to do so, and with certain modifications she kept her work.

"Is Mrs. Blank at home?" asked the caller.

"For this wan toime, Mrs. Smithers, she ain't," said the maid "but Hivin held her if you ask me again. I'll not lo twoice for anybody livin."

An Interesting Lecture by Capt. Jack Crawford.

On Wednesday night the Court house was crowded to hear Capt. Jack Crawford, the famous poet scout, in a recital o his own poems of his western life. He was listened to with marked attention and many of his poems were so touching that they brought tears to the eyes of his hearers. Capt. Jack is certainly a remarkable man.

Thursday morning the Institute was opened with a song service led by Prof Meyer after which Rev. Ambrose Schmidt led the devotional exercises.

The following candidates were placed in nomination for vice-president: C. D. Koch, A. A. Pletcher, C. L. Gramley, H. C. Rothrock. For Secretary, Harry Frain, Curtin Wieland, S. S. Williams. A ballot was taken but the result was not announced at the morning session.

Dr. Miller, who has established himself as a great favorite with the teachers, gave a talk on "Russia—The Sleeping Giant." His talk was illustrated with a map of Russia and he showed the wonderful resources of the country. Briefly recited its history and told how it came to the assistance of this country during the dark days of the rebellion.

The closing period of the morning was occupied by Prof. A. Reist Rutt, of Ardmore, who gave a talk on Victor Hugo's great novel "Les Miserables." The talk was very interesting and instructive.

Army of Insane are out of a Job.

The big crop of corn on the hospital farm at Danville is all husked and the small army of patients who delight in knocking around out of doors and who took hold of corn husking with a vim are now out of a very congenial job.

There is no work on the big farm that the insane men take so much delight in as corn husking. Nearly a hundred might have been seen at work at one time, not a few of them being very expert. The completion of this job, which practically winds up the work of the farm, deprives the patients of the healthful exercise and diversion that proves so beneficial. During the winter, of course, the patients who work in the summer are taken out daily for exercise, but it is only a short airing and no manner of a substitute for the recreation of easy and healthful employment on the farm.

With the privilege of working in the fields confinement at the hospital for the insane loses much of its horror. Besides, those who so labor have the advantage of being furnished with tobacco free and can indulge in the weed without restraint. Although while at work in the fields the insane men frequently enjoy their happiest mood.

Spring Election Next.

The spring election in the boroughs and townships of the county will be gotten under way and the prospective candidates are already forming plans of campaign. The election will occur on the third Tuesday in February, or February 19th. The primary elections will be held on Saturday, January 26th, and will be under the new primary law. The regular election boards will sit as usual on that date from 2 o'clock in the afternoon until 8 o'clock in the evening, and the nominations of all parties will be made then.

Barclay's majority		4350

NO LET-UP IN PITTSBURG

Reports of Hold-Ups and Robberies Pour In On Police.

Pittsburg, Pa., Nov. 17.—While detectives are still hunting for the murderers of Harry F. Smith and James A. McMillen, who were victims of thugs yast week, and with the sections of the city where hold-ups have been most frequent fairly swarming with policemen and plain clothes officers, reports of robberies and burglaries continue to be made public.

Mrs. Alexander Swick, of Glenwood, was choked and robbed by a burglar, who compelled her to reveal the hiding place of her money.

Miss Elizabeth Munhall, of Braddock, fired at burglars and frightened them away.

John Burke, of Lacock street, Allegheny, was held up and robbed under the Seventh street bridge.

Two burglars were discovered at work on the safe of the Mansion hotel, Haysborough, but were scared away.

Burglars attempted to break into the office of the Griswold Wire company, of Braddock.

The police continue to make many arrests on suspicion, which are disposed of by fines or short terms in the work house and warnings to go to work or leave the city.

EXPLOSION IN PENNSY TUNNEL

Negro Buried Under Tons of Rock and Sand.

New York, Nov. 17.—Following the explosion of a blast in the Manhattan end of the Pennsylvania railroad's East river tunnel, tons of sand and rock tumbled down, filling an excavation which had been hastily vacated by a gang of workmen. One man, a "heading boss," had missed his footing and fell to the bottom of the pit, where he was buried in the mass. It was hours afterward that the body was recovered.

The men were working in a section of the new tunnel in East 34th street, 60 feet under the surface. They had sought refuge in the completed tube when a blast was discharged in the excavation. After the explosion Lee Stribling a negro, 30 years of age, stepped to the mouth of the tube and, missing his footing, tumbled to the bottom of the boring, six feet below. Other laborers hurried to Stribling's aid, when an ominous grinding of the earth above drove them back to the tube. Before the negro could gain his feet the mass of earth settled upon him.

Advised to Prepare For Primaries.

Harrisburg, Pa., Nov. 17.—George D. Thorn, chief clerk of the state department, issued a statement advising county commissioners throughout Pennsylvania to make the necessary arrangements for the holding of winter primaries, under the new uniform primary election law, in boroughs and townships. Mr. Thorn also suggests that the commissioners provide supplies and equipment for each district as required by the act and to provide ballot boxes for exclusive use at primary elections, in order that the boxes in use at general elections need not be disturbed.

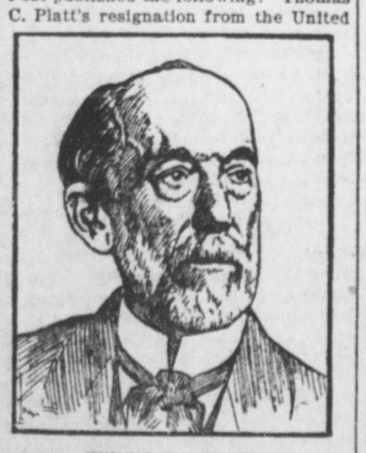
Standard Oil Stock Declines.

New York, Nov. 17.—Standard Oil stock declined further on the curb stock market, selling down to 525, or 25 points below the closing price, 49 points from Thursday's high and 71 points since Monday. Dealings in the stock totalled more than 500 shares. The stock held at $591 a share on November 1, at $700 last January and at $840 in 1902.

TOM PLATT TO RESIGN

New York Senator to Retire Altogether From Public Life.

New York, Nov. 17.—The Evening Post published the following: "Thomas C. Platt's resignation from the United



SENATOR T. C. PLATT.

States senate is said to be ready for filing with Governor Higgins. Senator Platt, it is reported, has decided to retire altogether from public life.

"Recent disclosures concerning the senator's domestic troubles, added to his increasing age, are declared to have forced him to the decision to relinquish his office."

SERVIAN CROWN PRINCE INSANE

Physicians Fail to Effect Cure and He May Be Sent to a Sanitarium.

Vienna, Nov. 12.—The Servian minister here was seen regarding the reports of the insanity of Crown Prince George of Servia. He said it was true that the crown prince had shown lately excessive irritability, and that this had caused great anxiety in court circles. He does not believe that the prince's affliction will be admitted officially, although the efforts of physicians to cure him have ended in failure. The minister has no official information on the matter, but believes the prince may be sent to a sanitarium, probably in some other country, and that further endeavors will be made to effect a cure. The prince has shown such abnormal symptoms that he must be isolated.

According to advices received here from Semlin there is talk of changing the succession of Servia, in favor of Prince Alexander, the second son of King Peter.

FAMOUS SINGER ARRESTED

Caruso, Grand Opera Star, Charged With Insulting a Woman.

New York, Nov. 17.—Enrico Caruso, tenor of the Metropolitan Opera House company, was arrested while a visitor at the menagerie in Central Park, on a charge of disorderly conduct, preferred by Mrs. Hannah Graham. The complainant, who said she was unaware of the prisoner's identity, alleged that Caruso had repeatedly insulted her.

After having been locked up for an hour Caruso was released on bail furnished by Henrich Conreid, of the operatic company.

At the police station to which he was taken the tenor created a scene, and it was only with difficulty that he was induced to submit to the routine examination and search to which all prisoners are subjected. Throughout the ordeal he vehemently protested that a mistake had been made in his arrest, and at its conclusion the star was on the verge of collapse.

LIPTON SAILS FOR ENGLAND

Says He Has Made Up His Mind to Challenge For America's Cup.

New York, Nov. 17.—Sir Thomas Lipton sailed for England on the steamer Carmania. Before Sir Thomas went on board the steamer he said that he had practically made up his mind to issue another challenge for the America's cup.

"I came here this time," Sir Thomas said, "with one purpose in view—that was to pave the way, if possible, for another challenge to the New York Yacht Club for the cup, and I shall go home with the refuge in that my visit has not been a failure. There is the greatest probability that I shall challenge for the cup next year, the race to take place in 1908."

ADMITS $70,000 SHORTAGE

Vice President of Cotton Company Confesses Embezzlement.

Memphis, Tenn., Nov. 16. — After several weeks of detective surveillance, J. E. Hutchinson, second vice president of the Delta Cotton company, has admitted to the members of the firm that he is approximately $70,000 short in his accounts. Mr. Hutchinson on the night of November 2 attempted to commit suicide, but has recovered. The shortage is said to cover a period of 10 years.

Biggest Battleship Launched.

Tokio, Nov. 16.—The first class Japanese battleship Satsuma, of 19,000 tons, the first battleship to be launched in Japanese waters, took the water in the presence of the emperor. The greatest enthusiasm was manifested. The newspapers here reflect the epoch-making nature of the event, as indicated by the unprecedented presence of the emperor, and eulogize the success of the naval constructors. It is taken for granted that the Satsuma is the equal to and perhaps the superior of anything afloat. The Satsuma is the biggest and most powerful warship in the world. The vessel is of 19,200 tons, is 482 feet long and 83 feet beam and has a speed of 20½ knots an hour.

Earthquake In New Mexico.

Santa Fe, N. M., Nov. 16.—Santa Fe was shaken for several seconds by an earthquake that rocked houses, but did no apparent damage. Reports show that the shock was general over New Mexico. At Socorro the first shock occurred and lasted five seconds. Several shocks followed at intervals of from five to 10 minutes. Shocks were also felt at Torrence, Estancia, Albuquerque and Las Vegas.

Brass Bands to Get Church Members.

Chicago, Nov. 16.—Brass bands for recruiting members of the church were advocated by Rev. A. W. Byrt, superintendent of the Brooklyn Church Society, at the session of the National City Evangelization Union. "Give me a brass band," said Dr. Byrt, "and I will attract hundreds of persons, out of whom members of the Methodist church will be made."

Bishop John J. Tigert Critically Ill.

Tulsa, Indian Territory, Nov. 16.—Bishop John J. Tigert, of the Methodist Episcopal church, south, whose home is at Louisville, Ky., is critically ill of tonsolitis. His family has been summoned. The bishop came to preside over a conference, but was unable to officiate.

Eight Killed By Explosion.

Douglas, Ariz., Nov. 16. — Samuel Steel, Victoria Shell and six Mexicans were killed by a premature explosion of giant powder at a lime quarry east of Douglass. Mr. Samuels, a brother-in-law of Shell, was crushed and may die. The explosion threw hundreds of tons of rock on the workmen. Men were sent from the smelters to dig out the bodies.

Gen. Pershing Ordered to Philippines.

Washington, Nov. 16.—Orders were issued at the war department detaching Brigadier General John J. Pershing, U. S. A., from the command of the department of California and ordering him to proceed to Manila, P. I., via Tokio, Japan, where he will take command of the department of Visayas, relieving Major General Jesse M. Lee.

Compensations of Deafness.

A man who had traveled and observed much decided to become deaf.

"I is a misfortune," he said; "but there are compensations—if one is not too deaf. I spent two days recently in a country hotel with a man who was just comfortably hard of hearing, and he certainly had every reason to consider himself a wonderfully wise man. He was invincible in argument. Just think what a pleasurable feeling of infallibility in argument. No matter how absurd the position he took, he was able to maintain it against all comers. I know, because he lured me into various arguments and invariably overcame me. He would make a statement and I would flatly contradict it, but that made no difference to him. He would accept my contradiction as an indorsement of his position and continue his dissertation. When I got a chance I would advance a few arguments on the other side.

"I am glad," he would say calmly, 'that you accept my views.'

"'But I don't accept your views,' I would protest.

"'What!' he would cry. 'What did you say?'

"I would go over my argument again, and he would make me repeat several parts of it three or four times. Then he would undertake to answer what I had said, incidentally misquoting me. I would correct him, but it was a difficult and tiresome thing to do, and finally I would let him ramble along.

"I tried to avoid him after that, but it was no use; he was convinced that he had great persuasive powers, probably as a result of practicing on others like me, and he wanted to be sure that I was converted to his views on everything. It set me to thinking of others I knew who were 'a little hard of hearing'—not really deaf, you know—and I could see that there was some sort of a compensation to each of them. One fellow, who could hear a request for an increase of salary, and he wore out every man who asked for one. That was the way with this deaf controversalis; he wore me out. He had me tactfully pledged to every sort of an absurdity, and he was so proud of his success that he was strutting about like a turkey-cock. When I was leaving I heard him say to the landlord, 'Yes, he's a pretty good fellow; but no match for me in an argument. I downed him every time and made him own up to it.'

"So I've decided to become deaf, or at least 'a little hard of hearing.'"

A New Trolley Scheme.

From Sunbury to Williamsport by trolley is a possibility of the near future, is the news from the capital city of Lycoming county. During the past week capitalists have endeavored to close up a deal whereby the franchise of the Muncy and Hughesville Electric Company might be purchased, which means the linking of Muncy and Williamsport. Those in closest touch with the situation say that before a year has passed the proposed line will be constructed and in operation. This piece of electric road would prove to be a link between Williamsport and Sunbury. By a recent franchise the Milton, Lewisburg and Watsontown passenger railway is to be extended to Sunbury over the old Pennsylvania canal bed. The erection of the free bridge at Lewisburg will make this line a profitable one, and its construction will be begun soon after the completion of the intercounty structure. Williamsport's line extends to Montoursville, and the possibility of connecting with Muncy has been the cause of much recent speculation. That the proposed new line will be extended to Montgomery is already strongly intimated, and there will be but a few miles of unconnected territory in the entire fifty miles. Muncy merchants and business men are strongly in faver of the move and will employ every effort to bring it about. The new company is backed by big capitalists who seem to regard this plan as an exceptionally inviting and fessible proposition.

Pennsylvania Promotions.

C. S. Kessler, foreman of car inspectors in the Pennsylvania shops at Sunbury, has been promoted to assistant to the general car inspector at Williamsport, and will have jurisdiction over the car inspectors from Lock Haven to Rockville and on the Lewisburg and Tyrone branch under Superintendent H. P. Lincoln. Kessler is succeeded by Ezra Krouse. G. C. Starrow, for some time one of the assistants to Charles Alvater, foreman of the Sunbury car shops has been appointed to serve as the general foreman of the car inspectors on the Sunbury division. T. N. Cooper will be assistant foreman of car inspectors under Foreman John Dehaven.

Editorial notices, in our local columns, 25 cents per line for each insertion

Professional or Business Cards, not exceeding 10 lines this type, $8 per annum.

All advertisements for a less term than three months 20 cents per line for the first three insertions, and 5 cents per line for each additional insertion.

Advertisers, and especially Advertising Agents, are respectfully informed that no notice will be taken of orders to insert advertisements at less rates than the above, nor will any notice be given to orders of parties unknown to the publisher, unless accompanied by the cash.

EARLE C. TUTEN.

Academy vs. Williamsport High School

The Academy has had a brilliant football record up to date, having defeated Lock Haven Normal once, Philipsburg twice, Lock Haven High School once, and Williamsport High School once, a nothing to nothing score was made in a practice game with the college scrub and the State Varsity found them a plucky team when they defeated the Academy 12 0 in two fifteen minute halves for practice. Dickinson Seminary one of the strongest teams in Penna, defeated the Academy early in the season at Williamsport and the Lock Haven Normal won their first game with the Academy at Lock Haven by a very lucky touchdown.

On Saturday at 3 p. m. probably the last game of the season in Bellefonte will be played at the fair grounds with the Williamsport High School. It will be a great game, all the new football plays will be well illustrated in this contest, Williamsport will try hard to redeem the defeat she suffered on Election day.

Admission 25 cents, all tickets must be displayed by those standing along the side lines. A large crowd should encourage the Academy boys in this contest. On Thanksgiving Day the Academy will probably end the season with a game at Baltimore with the Baltimore University.

Cause for Thankfulness.

Thanksgiving day is an invention of old times. It reminds us of a day when men were more simply and more genuinely religious than they are now.

But old fashioned Thanksgiving is by no means out of date.

We need the day and the spirit of Thanksgiving as much as we ever did.

The spirit of thankfulness is a healthy, modest and courageous spirit.

There are a few so crushed with temporary misfortune that the whole world seems black to them.

But of all men really worth while a great majority are filled with thankfulness as they consider themselves and the world.

It is a good world. It gives us at least a chance to do our best to succeed if we can.

Athletic Girl Shoves Intruder into Prison.

George Dillion is serving a five-day sentence in jail at Coudersport for being drunk and disorderly. He was placed in a cell by Miss Susie Press a powerful and fearless young woman employed at the bastile.

Dillon entered the front door of the jail, which opens into the apartments of sheriff and Mrs. W. A. Stevens, and, entering the dining room, sat down. Mrs. Stevens ordered him to leave the room and he refused to do so.

She then called Miss Press, who gave him a like order, and when he failed to move, she took him by the collar, jerked him up from the chair, and after Mrs. Stevens opened a cell door, Miss Press shoved the man into the room after a strenuous tussle with him.

Suggestion for Merchants.

Newspapers have always had a hard time to persuade retailers to advertise, and even today there are many merchants who scoff at it. The truth is that merchants couldn't do business at all without advertising in some way. They have all done it. They didn't know it was advertising. Their mediums have been windows and the circulation the passing crowds. Now, a newspaper is nothing else but extending your window advertising to a circulation. By pictures of the goods instead of goods, and printer's ink instead of brush and cards you have only to apply the same principles, and you succeed in the same way, but in far greater proportion.—Judicious Advertising.

A Gunning Accident.

A twelve year old son of John Tatters, of Winburne, met with a very serious accident on Saturday while out hunting. He was walking along, carrying a double barrel shot gun, when he had the misfortune to stumble and fall, with the result that both barrels of the gun were discharged, taking effect on one of his legs, tearing off much of the flesh above the knee as well as nearly all the calf the leg.

THE AILING HABIT.

It Only Aggravates the Trouble and Should Be Avoided.

If you are not well don't talk about it. To do so only exaggerates your consciousness of physical discomfort; also it casts a shadow of gloom over other people. They grow hesitant about asking you how you feel. It gives them cold chills to be continually told that you are "not very well" or "not so well" or "about the same."

Probably you've said these things so often that you say them now as a matter of course. It seems incredible to you by now that you should ever feel really well, because you've unconsciously made a habit to be ailing.

Do you know that a good deal of this is imagination? If you braced up and told people cheerily that you felt tiptop nine chances in ten you would feel tiptop pretty soon. You'd forget the ailing habit.

And, after all, what great difference does it make to any but your nearest and dearest if you don't feel well? Suppose you are even hampered by downright physical ills? Your work must be done just the same. It can't be? What nonsense! Of course it can.

Consider the splendid people who have conquered desperate ills in order to get their work done. The woman who has something to do doesn't have the time to complain of not feeling well.

TO HELP YOURSELF.

Cultivate These Qualities and They Will Well Repay You.

A good memory for faces and facts connected with them, thus avoiding giving offense through not recognizing or bowing to people or saying to them what had better been left unsaid.

An unaffected, sweet, distinct and sympathetic voice. The American feminine voice is a target which has been hit hard many times and very justly. Learn to be appreciative of the natural mellow tones possible to every woman and avoid the shrill voices that remind one of a large concourse of hens.

Cultivate the charm of making little sacrifices quite naturally, as if of no account to yourself.

Cultivate the habit of making allowances for the opinions and feelings of others as well as their prejudices. We can't all see things from the same angle in this world. If we did it would be a mighty dreary, monotonous old sphere.

Cultivate the art of listening without impatience to prosy talkers and of smiling at the twice or thrice told tale or incident. It really won't hurt you to hear it over again, and, then, remember that you are never so charming as when you are making other persons think they are interesting.

CULINARY CONCEITS.

When frying eggs have the fire low and slide them about the pan to prevent burning the thin whites.

Bacon should be soaked in water for three or four minutes before being fried to prevent the fat from running.

When making layer cakes spread the batter around the pans with a spoon, making it thicker around the edges than in the middle.

Apples alone with olive oil, or apples and celery with equal parts of olive oil and cream mixed, form a light, nourishing and easily digested meal.

A custard cannot be boiled. Boiling at once curdles the egg. But a custard put in a jar in a saucepan of water may have the water boiling round the jar with good effect.

Cucumbers fried with onions are an old English relish for eating hot with cold sliced meats. Fry the onions first after they have been shaved quite thin; then add the floured cucumbers and dry thoroughly.

Antique Furniture.

So much antique furniture is in use at the present time that a few suggestions as to its care may not come amiss. Wipe each piece carefully with a damp chamois skin, rinsing out the chamois frequently to remove every particle of dust, and give particular attention to the carvings. These may be gently brushed with a soft brush, such as is used in burnishing silver, dipped in lukewarm water in which a little soap has been dissolved. After drying the wood, carefully rub in a little linseed oil and polish with a soft cloth. This treatment applies only to mahogany and oak furniture. A very good dressing for black walnut and ebony is made from half a wineglassful each of olive oil and vinegar and a spoonful of alcohol. Linseed oil with a little turpentine added is also a very satisfactory dressing. If there is much carving on the furniture the wood may be cleansed with paraffin before polishing

Children's Eyes.

Don't let any false notions about appearances keep you from having the children's weak eyes examined in early childhood by a competent oculist and if he thinks best glasses prescribed. By the early use of glasses many eyes can be so strengthened as to make them entirely serviceable without that artificial aid later in life. At no time in life are spectacles any disgrace to the wearer, so many and varied are the demands of modern civilization upon the delicate sense of sight, says the Chicago News. Let parents watch over the manner in which such children do their reading, both day and night. See that they do not read in too glaring a light or facing the light. If thought necessary, furnish them with large pasteboard shades, such as engravers use when they read by lamp or gas light. Go to their school and see that they are favored there with the proper arrangements of light

HALT IN CRIME AT PITTSBURG

Long List of Murders, Hold-Ups and Robberies In Past 16 Days.

Pittsburg, Pa., Nov. 19.—The epidemic of crime that has swept over this city and vicinity since November 2 has apparently run its course, and only a few small burglaries were reported to the authorities. During the past 16 days three murders were caused by thugs bent on robbery; carbolic acid was thrown in one woman's face, disfiguring her for life; half a hundred men were badly beaten; a hundred or more men and women were held up on the streets at the point of a revolver and robbed; houses in all sections of the city were broken into and thousands of dollars' worth of plunder stolen; scores of suspicious persons have been arrested and sent to the workhouse; 200 additional policemen were added to the police force, and rewards aggregating $7000 were offered for the arrest of the murderers of James A. McMillen and Henry F. Smith. Detectives came here from other cities and endeavored to capture the murderers, and notwithstanding the combined efforts of the authorities, failed to arrest any person directly implicated in the outrages. A few days following the McMillen murder hold-ups were so frequent that persons compelled to be out late purchased firearms, causing an unusual rush of business at the hardware and gun stores.

The police express the belief now that the outrages were committed by a roving band of expert criminals, who have departed for other fields.

HUMAN BONES AS CUDGELS

Medical Students Use Arm and Leg Bones In Fracas.

Chicago, Nov. 19. — Human bones were used as cudgels, and ossified arms and legs swung by medical students played the star part as bludgeons in a fracas with the dental students on the football field at Northwestern University. The football teams of the dental and medical departments of the institution met for their annual game. Between the halves the friends of the teams clashed. Each dental student carried a grotesque papier mache cane, which they wielded with effect on the "medics." When the medical students saw their opponents rushing toward them, they suddenly drew form from under thier overcoats leg and arm bones, tied with red and purple ribbons, and with these clubs smashed the heads of the invaders unmercifully. The dental students were soon put to flight, and during the last half of the game the medical students wildly swung their grewsome weapons while urging their team to victory.

COLLISION ON D., L. & W.

One Killed and Four Injured In a Head-On Crash.

Scranton, Pa., Nov. 19.— William Merritt, fireman, was killed, four others were injured and three locomotives and two milk cars destroyed in a head-on collision on the Delaware Lackawanna & Western railroad at Lehigh, near here. The dead and injured are all from this city.

The injured are E. Mansfield, fireman, leg broken, condition critical; George Bender, fireman, leg broken; John Gill, engineer, injured about the head and shoulders; John Gaffney,

EMERY HEARING POSTPONED

Counsel For Both Sides Agree to An Indefinite Postponement.

Philadelphia, Nov. 17.—Following a conference between A. S. L. Shields and former Judge James Gay Gordon, the hearing of ex-Senator Lewis Emery, Jr., on the charge of criminal libel preferred by Senator James P. McNichol, which was to have taken place, has been indefinitely postponed.

The basis of the charge is that ex Senator Emery, while on the stump in behalf of his candidacy for governor on the fusion ticket, declared that Senator McNichol bribed five Democratic members of the legislature in the session of 1901, giving them $15,000 each to vote for the Republican candidate for speaker.

HEARST SPENT $256,370

Defeated Candidate For Governor of New York Files Expense Account.

Albany, N. Y., Nov. 17.—William Randolph Hearst, the Independence League and Democratic candidate for governor, certified to the secretary of the state that he had spent $256,370 in promoting his canvass. This was divided as follows: Independence League, $198,870; Democratic state committee, $57,000; travelling expenses, $500.

Washington Bars Engines.

Washington, D. C., Nov. 19.—Steam engines will be prohibited entrance to the District of Columbia on the completion of the new Union station in Washington. The commissioners of the District of Columbia took final action in an order prohibiting the use of anything but electric engines in drawing trains into the new Union station. This applies to all railroads entering the city and is made in the interest of the anti-smoke crusade which has waged here for years.

Eight Killed By Explosion.

Douglas, Ariz., Nov. 16. — Samuel Steel, Victoria Shell and six Mexicans were killed by a premature explosion of giant powder at a lime quarry east of Douglass. Mr. Samuels, a brother-in-law of Shell, was crushed and may die. The explosion threw hundreds of tons of rock on the workmen. Men were sent from the smelters to dig out the bodies.

More Wages Increased.

Chicago, Nov. 17.—The movement towards higher wages which has been in progress throughout the country for several weeks; received another impetus when the Chicago & Alton railway announced a 13 per cent. increase in pay, retroactive to November 1, for all its switchmen. The new advance applies to every yard employe of the company and represents a horizontal increase in pay. Aside from these employes, 100,000 employes of western railroads are negotiating for higher wages, and it is said the directors are considering a general advance in wages.

His Head Crushed By Fly Wheel.

Pittsburg, Pa., Nov. 17.—Louis W. Kirkland, 33 years old, employed in a confectionery store, had his skull ground off by being caught in the spokes of a fly wheel and died almost instantly. Kirkland, with several other employes, was trying to start a gas engine in the ice cream manufacturing department of the establishment, and Kirkland took hold of the fly wheel to throw it over. His head was between the spokes of the wheel, when the engine started suddenly, crushing his skull. He fell with a choking moan and was being dragged farther into the machinery when it was stopped.

NUGGETS OF NEWS

The Bank of Henderson, Ia., was dynamited by robbers, who escaped with $3000.

Charles E. Grant, a negro, was hanged at Washington, D. C., for killing Sva Barnes, also colored.

Luxuries were purchased by the United States from abroad to the extent of $100,000 during the fiscal year 1906.

Mike Ward, the pugilist, died at Grand Rapids, Mich., as the result of a knock-out in a fight with Harry Lewis, of Philadelphia.

While suffering from rheumatism, George Seaffe shot and killed himself in the presence of his 86-year-old mother in his home in Philadelphia.

The World's Temperance Sunday.

As in previous years, The International Sabbath School Association has appointed the World's Temperance Sunday for the last Sabbath in November, now in 1906 it is the 25th inst. The day will be observed as Temperance Rally Day by the Coleville Bible School next Sunday at 2:30 p. m. regardless of the weather, rain or shine. It is expected that the chapel room will be fully filled with interested spectators and well prepared performers so the good work of the school will be greatly encouraged for the very highest good of all families in Coleville, a village "beautiful for situation" on the mountain side of the Alleghenies.

Two of the best vocalists in Bellefonte will be present to assist in the praise part of the exercises. Two interesting speakers will give five minute instructive talks on the lesson for the day.

Died at a Ripe old Age.

Mrs. Adaline Cornmesser, a native of Centre County, and the mother of Mrs. Anna Matts, of Philipsburg, died at Harrisburg, Saturday afternoon, after a long illness, aged about 83 years. Her remains were brought to Tyrone, where they were laid to rest Wednesday afternoon. The deceased is survived by four daughters and two sons. They are Mrs. Amanda Kephart, Mrs Fannie Hobba and Charles Peary, of Osceola; Mrs. Rose J. Flinn, of Bismark, North Dakota; Mrs. Anna Matts, of Philipsburg, and J. W. Peary, of Tyrone. One sister, Mrs Lydia Osmen, of Los Angeles, California, also survives. The aged lady was a consistent member of the Methodist church

Governor-Elect a Bachelor.

It is said that Governor-elect Edwin Stuart will not go to Harrisburg, before inauguration day, next January, unless something develops requiring his presence. Mr. Stuart is a bachelor, and his sister, Miss Cora Stuart, who at present has charge of his home in Philadelphia, will do the honors at the executive mansion during her brothers's term of office. For the first time in over half a century the governer will be a bachelor.

Found Wedding Ring in Rabbit's Stomach.

While cleaning a large rabbit he had killed during a gunning trip near Snow Hill, Policeman George E. Donovan, of Camden, found a wedding ring in the animal's stomach. His hand hit against a hard substance during the cleaning, and an investigation revealed the ring. It contained the initials "J. P. to J. P." Mr. Donavan will try to find the owner.

—A young woman for whom housekeeping has yet the charm of novelty was discovered in the kitchen with an open recipe book and eight teacups, each containing an egg, yolk and white together, ranged before her. She was industriously beating the egg in one cup.

"Marianna, what do you think you are doing?" asked her friend, for whom housekeeping had lost both novelty and charm.

"I'm making a cake," said Marianna beamingly.

"I thought maybe it was egg-nog for eight. Why this array of cups?"

"Why, the books says. 'Break eight eggs and beat separately.'"

Y. M. C. A. Notes.

Everything is activity around the Association at present. Tuesday evening a supper was served to boys at 5 o'clock and a second supper to men at 6 30 Four Bible classes were conducted with a total attendance of 53.

Two basket ball games were played in the gymnasium before a large number of spectators, a rehersal conducted for the coming entertainment, "The Lawn Party" and a meeting of the Educational committee was held.

The Association is now giving considerable study to the educational needs of our local young men. Some young men have requested mechanical drawing, electricity and kindered subjects, so as soon as possible classes will be organized to meet their needs. The Educational committee is fortunate in having for its chairman Prof. J. E. Wagner, of the High School, who is lending very valuable assistance in the educational department. At its meeting Tuesday evening the committee voted to engage Mr. F. E. Pray, of the local school teaching corp, to outline and teach common school branches to working boys.

If enough boys can be induced to enter these classes, the present season will be divided into two terms of ten and eight weeks respectively. There will two evenings per week devoted to this work, at least three subjects being taken up each evening. The subjects taught will include spelling, grammer, arithmetic, writing, algebra and perhaps book-keeping. The expense per student will not amount to more than twenty-five cents per night and will be less than this if a good enrollment is secured.

Real Estate Transfers.

The following real estate transfers were recorded during the past week by Recorder John C. Rowe.

E. O. McCormick, et ux to D. A. Sawers, Oct. 6, 1906; lot in Philipsburg. Consideration $2500.

Frank F. Irvin to Hannah Ruth Irvin, Nov. 16, 1906; premises in Philipsburg. Consideration $1250.

John I. Thompson, et al to Harry Gill, July 28, 1906; land in State College. Consideration $100.

Lehigh Valley Coal Co. to Snow Shoe School Dist. Aug. 17, 1906; lot in Snow Shoe twp. Consideration. $1.

Isaac Wolf, et ux to Ambrose Douty, Feb. 26, 1903, 29 acres in Miles twp. Consideration $50.

J. Spigelmyer, et ux to R. A. Douty, Aug. 24, 1906; 200 acres in Gregg twp. Consideration $800.

Chas. Smith, et ux to Christ Shauer, June 14. 1900; 406 acres in Rush twp. Consideration $500.

Francis F. Milne to Christian Shauer, Jan 5, 1904; 866 acres 306 perches in Rush twp. Consideration $1300.

Zoe S. Barthuff, et al to Matilda J. Paye, Oct. 29, 1906; premises in Bellefonte Consideration $1850.

W. T. Noll, et ux to Laura A. Gill, Nov. 3. 1906; lot in Spring twp. Consideration $600.

Sophia Hale to Maggie J. Swift, April 5, 1906; lot in Philipsburg. Consideration $450.

Better Train Service.

It is almost certain that a new passenger train is to be put on between Williamsport and Mill Hall where connections are made with the Central Railroad of Pennsylvania for Bellefonte. These rumors have not been verified by the officials of the N. Y. C., but are said to have come from a reliable source.

The new train is to make two round trips each day, according to the report. It will go down in the morning, arriving at Williamsport about 8 o'clock, and returning will leave that place about 11 o'clock. Then it will go down again about 5 o'clock in the afternoon and return at 8 p. m. Such a train would increase traffic on the Central without a doubt and prove a great convenience.

Buying More Coal Lands

Rembrandt Peale, who has extensive coal interests in the neigborhood of Philipsburg, as well as in several adjoining counties, has just closed a deal for an additional 1000 acres of coal land in East Mahoning township, Indiana county. The purchase embraces what is known as the Englands and Barr holdings and includes lands of Jos. Palmer, Jacob Philips, Abram Lowman, Philip Wagner, L Riethmiller and the Schrader place. Mr. Peale purchased the coal under the two Sator farms and other land adjoining the above boldy some time ago.

The Matrimonial Market.

The following marriage licenses were issued during the past week by Register Earle C. Tuten.

George C. Stiler Blanche B. Taylor	Spring Mills " "
Adam Fravel Amanda Dorman	Hublersburg Snydertown
George C. Stover Pearl B. Corman	Coburn "
George W. Brown Mary Fry	Bellefonte "

38 Years Separated Family is Reunited.

A notable family reunion was that which occurred at the residence of Mr. and Mrs. George Sheasley on Thursday, November 15, 1906, in Flemington, on account of the presence of Mr. Shearsly's sister, Mrs. Mary A. Shaw, of Shabbona, Ill., whom he had not seen for 22 years, she having left Clinton county shortly after marriage and migrated to Illinois and in whose honor this reunion was especially instituted. Only those who have experienced those long separations can appreciate the felicity of Mr. Sheasly and his good wife in the happy priyilege of adding to their immediate family group, a sister who has been absent for almost a half century. Of the married sons and daughters of this worthy family who were present are: Chas. B. Sheasly, State College; John C Sheasly, wife and children, Altoona; Julia R. McKissic, husband and son, McKees Rocks, Samuel J. Sheasly, wife and daughter, Cedar Springs; Lizzie H. Myers, husband and daughter, Beech Creek; Milton G Sheasly, wife and son of Mill Hall, and of those not married at home are: Mary C., Lewis G., Almond A., Ernest E., Walter S and Ella M. This interesting reunion circle was incompleted by one married son, Martin P. Sheasly, Grande, Oregon. Samuel Sheasly, Montgomery, brotner, and Mrs. P. Bartholomew, Mill Hall, cousin to Mr. Sheasly, were present.

Mr. and Mrs. Sheasly received many valuable and useful presents and they in turn entertained their reunited family and friends in a most sumptuous manner, the festive board, figuratively speaking, groaning by reason of the many good things fairly piled thereon. It was a day long to be remembered, a day of joy and gladness but not one of riotous mirth, as these people seemed to evince rather the spirit of a silent gratitude for the privilege of communing of sadness intruding itself by reason of the fact that this circle would exist but for a day, when it would be broken.

Hunting Dogs in England.

Although English fox hunters complain that hunting as a sport is passing, it would seem, in view of the vast number of packs of hounds now owned and employed frequently during the winter open season, that the sport is still in a healthy state and that if it is indeed giving to other amusements, there is the likehood that the change will be a very gradual one. One authority on the subject of hunting assures us that not only is the standard of dogs much higher than ever before, but the general run of horses for cross country riding shows decided improvement over those of a generation ago.

Various causes are given for the falling off in the popularity of fox hunting, barbed wire fences taking first place despite the fact that every known influence is brought to bear to discourage the building of these obstructions to cross country riding. In districts were hunting still attracts large attendance from the countryside, arrangements are even made to do away with barbed wires during the winter season and it can readily be understood how expensive this work can become if prosecuted on a large scale.

Diseases common to foxhounds, mange being first in importance are given credit for keeping the balance of hound life life down, and the encroachments of business enterprises on the country must be reckoned with as well.

With these influences at work, however, the enormous extent to which British men and women devote their money and time to following the hounds cannot be understood without some statistics, and even these give but a faint idea of the scope of this great institution. At the opening of the hunting season this month there were in England about 170 packs of foxhounds, consisting in all of 1,884 couples, or nearly 3,800 hounds. Scotland boasts only 12 packs, totaling 382½ couples, or 765 hounds. Ireland had just twice as many packs as Scotland and they are larger ones, 1,155 couples, or 2 310 individual foxhounds.

U. S. Wealth Exceeds a Hundred Billions.

The United States Census Bureau ha estimated the total wealth of the country in 1904 to be $106,881,415,009.

This shows an increase in wealth over the estimate for 1900 of nearly 21 per cent and of 61 per cent over the estimate of 1890, when the total wealth was $65,977,091,197.

In 1904 the value of real property was more than $62,000,000; live stock, $4,073,791,736; railroad and equipments, $11,244,752,000, materials and products of manufacture, $7,409,286,000; manufacturing machinery, etc., $3,297,754,180; gold and silver coin bullion, $2,002,530,272.

Converted into, $1 bills, placed end to end, the string would be long enough to reach from the earth to the moon and back 30 times.

Unclaimed Letters

The following letters remain in the Bellefonte P. O. uncalled for November 19th 1906.

R. F. Eisenhuth, George Gersey, Ed. McClellen.

FOREIGN LIST.

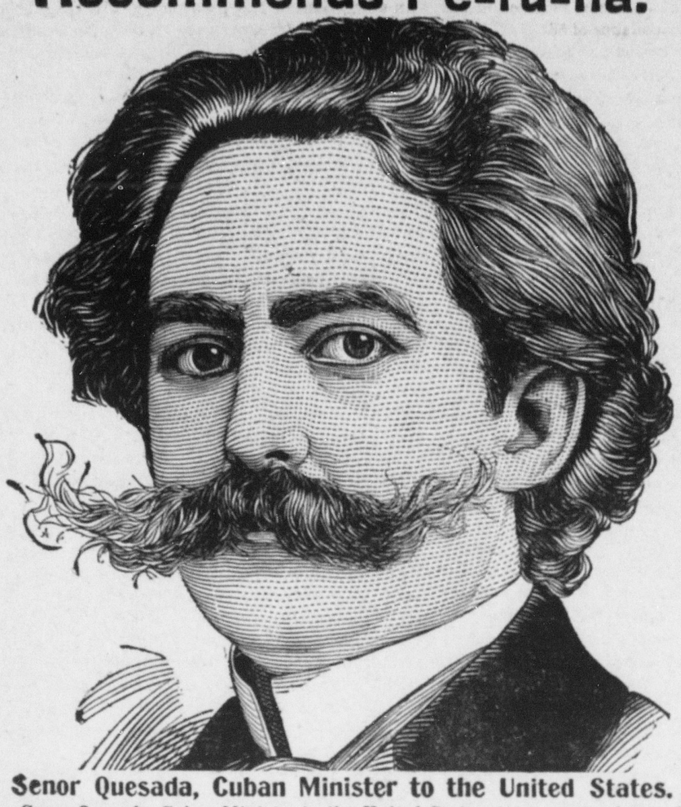
John Fremsky, Signor Bassola Guiseppe.

When called for please say advertised.

W. W. MONTGOMERY.

CUBAN MINISTER TO THE U. S.

Recommends Pe-ru-na.



Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban Theater, Matanzas, Cuba, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Drug M'f'g. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."---Gonzalo De Quesada.

Mr. Will A. Hoffman, Hagerstown, Ill., writes:

"I gladly give my testimonial with the thousands of others who have been cured by the use of Peruna.

"I had catarrh of the head and throat. I took cold easily and was dizzy-headed.

"I was all rundown and hardly able to work at all when I began using Peruna.

"But, now, after using it about six months I am well and strong."

There is no remedy in the world which has proven so popular for catarrh as Peruna. It has been used for more than thirty years and cured thousands of cases as proven by our testimonials.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

CORRESPONDENCE.

Moshannon.

Wm. and Arthur Roberts of Pitcairn visited their uncle, Simeon Hazzard here this week and took the opportunity to capture a few "cotton tails," which are quite plenty in this part of the country.

Mrs. T. M. Crownover spent a few days among friends in the vicinity of Howard recently.

A narrow escape, John Shepherd is the victim of a fortunate accident at Kelly's mines. While putting in a "mineing" a "slip" caused a fall of coal burying him beneath as much as two cars of it. Fortunately, his injuries were no worse than a dislocated shoulder and other slight bruises.

Jacob Craft a well known resident of Burnside Township was a business visitor to our town recently.

Rita Lucas visited friends in Bellefonte and Howard this week.

It is reported that the hunters have been quite successful so far. Owing to there being a great many deer in this locality and the advantage of a good tracking snow, quite a number have already been taken. Everybody, with few exceptions, have the "hunters' fever" so much so that it is becoming alarming. It is feared all work will have to be suspended until after season.

Lemuel Lucas of Derry, Pa., formerly of this place visited friends here during the week also enjoyed a few days at the hunting camp.

Prof. Snyder our popular schoolmaster spent Sunday among friends at the C. S. N. S.

The teachers are back to their work with new zeal and vigor after a week of fun, pleasure and profit at their annual institute. These gatherings are surely a benefit to the teacher, pupils and all parties concerned. Especially for the pupils, for they get a rest from too much discipline and sometimes tyranny.

Mrs Carson moved this week from her daughters residence here to her own house in Pine Glen recently vacated by Frank Fye.

Miss Mary Lomison the obliging post office clerk at Snow Shoe Sundayed in Moshannon.

We are informed that H. Z. Bierly, will leave this community in the spring and locate near Selins Grove. His property is up for sale now and will be sold at a bargain. Anyone wishing to locate in a pleasant and prosperous community will not miss it by investing here. We are sorry to lose Mr. Bierly as he is one of our industrious and enterprising citizens.

Woodward.

Mrs. Clayton Boob and children Miles and Grace from Nittany are visiting the lady's parents, J. L. Kreamers.

Geo. Fultz from Northumberland is visiting his brothers a few days.

Quite a number of hunters from Millersburg, Liverpool and Lancaster are staying at the hotel for a short time.

Miss Bessie Condo a young lady from Aaronsburg is visiting with her grandfather Kitner a few days.

Americans are known as a dyspeptic people. The extent of this disease maybe inferred from the multitude of so called "medicine" offered as a remedy. They are of en in tablets form and have no value except as palliative of the immediate effect of dyspepsia. The man who used them may feel better but is surely getting worse. They do not touch the real cause of the disease Dr. Pierce,s Golden Medical Discovery is a medicine specially prepared to cure diseases of the stomach and organs of digestion and nutrition. It is not made to give temporary relief but to effect permanent cure. In ninety-eight cases out of every hundered it cures perfectly and permanenently. It has cost Dr. Pierce $25,000 to give away in the last year the copies of his People s Common Sense Medical Adviser which have been applied for. This book of 1008 pages is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V Pierce'Buffalo, N. Y.

Renovo Man's Invention.

James P. McMahon, a prominent citizen of Renovo, who has been employed in the blacksmith department of the Pennsylvania Railroad shops of that place, has recently invented and has had patented, covering the United States and Canada, what is known as a smoke consumer, to be used on both stationery and lomotives engines,

This invention relates to an apparatus for consuming smoke and gases in fire-boxes using bituminous or anthracite coal, and is practically applicable to locomotive fire-boxes. The primary objectionable products of combustion, and will also appreciably multiply the heat units and operate to minimize the consumption of fuel.

The apparatus is easily applied and reliable in operation, and consists of an especially designed burner adapted to spraying fuel oil over the bed of coals, thus consuming all smoke and gases arising therefrom.

On a trial trip of seventy-two miles the amount of oil used amounted to thirty-six cents, saving by actual weight about one-third of the amount of coal. The inventor would like to hear from anyone who would be interested relative to purchasing a part or all, or to manufacture on a royalty.

—30 doz. Handerchiefs. Values 15 to 25 each. Your choice 10cts—Garman's.

Racer and Rattler.

I got the following snake story today from Mr. Geo. R. Morse, a cattleman living near Florence, some fifty miles above here. Mr. Morse is a gentleman whose word is unquestionable veracious, and there can be no doubt that he has told nothing but what he actually saw. "We were driving a bunch of cattle, three vaqueros and I," said Mr. Morse, "when we saw a rattlesnake in a most peculiar position. Its head and tail were out of sight in the darkness of a gopher or ground squirrel hole, the body of course, forming a loop or circle outside on the ground. We all dismounted and one of the boys, finding a stick, poked the snake. It did not move, so we concluded that it was dead. Another one of the men then grasped it in his hands and pulled, and the tail part soon came out of the hole, but not the head; something was hanging on to that which also pulled, and jerked, jerked hard just as a dog will when one gives him the end of a rope, or rag in play; and it held on to the body so tenaciously that the man had to use all his strength to gain any on it. Little by little, however, he kept pulling it his way and sir, when he finally did succeed in drawing it out, we were astonished to find a big brown snake, locally known as a racer, hanging on to its head, with the tenacity of a bulldog. More than that, the racer wasn't at all afraid of us, and as soon as he also was free from the hole, he coiled himself around his prey three or four times as tightly as he could. I tell you it was a most surprising and interesting sight.

"One of my men, a young excitable fellow, rushed in before I could stop him and tore the racer loose from the rattler; it didn't want to go away at once, but circled around among us looking for its enemy, which the other man was holding suspended in the air. The young fellow struck at it several times before it did retreat into the bushes nearby. I kept calling to him not to hurt it, but at first he was too excited to hear me.

"Well, sir, the base of the head, and the neck of that rattler were literally chewed into shreds. In front of the quirrel hole, for a diameter of ten or twelve feet, the loose sandy soil of the desert was all smoothed over where the fight had taken place, and there were many scaly indentations in it where it had been whipped by the tails of the combatants. It must have been a fierce struggle that they had had. I believe that the rattler was able to resist some when the racer began to drag it into the hole, and that it thrust its tail in there thus making a loop of the rest of its body, that prevented its being drawn further in and there it died. It is hardly necessary for me to say that I kill no more racers and I have given my men notice that they must not do so either."—Forest and Stream.

Pictures from Life.

Characters are a strong feature in "New York Day by Day," the melodramatic attraction at the Garman opera house on Monday November 26th. The characters are taken from life and abound on the streets of New York. The hearty young American sailor can be seen any day along the docks of South street where the great ships of the South American and China trade unload. Behind him is seen perhaps the slinking form of the English foot-pad, intent on robbery and possibly sausage vendor, tormented by the mischievous newsboye, and the bluff Irish policeman helps the blind flower girl across the crowded street as the banker rolls by in his luxurious carriage.

Not only are the characters true types, but the scenery depicts with equal fidelity many notable localities in the metropolis. Battery Place, with the shipping in the bay, with Liberty's torch shining from the magnificent Bartholdi statue; Harlem Bridge in a raging blizzard; the infamous Hell's Kitchen, and the five points; the burning port in the East River, are a few of the realistic stage pictures shown in this production. The tory of the play is simple, direct, and appeals to every heart by its pathos and truth, while the comedy element is unusually abundant.

The Man Behind.

In almost every newspaper you pick up you are pretty sure to find a lot of gush about the man behind the counter and the man behind the gun; and man behind the buzzsaw and the man behind the sun; the man behind the times and the man behind his rents; the man behind the fence; the man behind the whistle and the man behind the cars; the man behind the kodak and the man behind the bars; the man behind his whiskers and the man behind his fist; and everything is entered on the list,

But they have skipped another fellow of whom nothing has been said—the fellow who is even, or a little way ahead; who pays for what he gets, whose bills are always signed. He's a blamed sight more important than the man who is behind. All the editors and merchants, and the whole commercial clan, are indebted for existence to his honest fellowman. He keeps us all in business, and his town is never dead; and so we take off our hats to the man who is ahead.—*Judge.*

Buffalo Flyer Wrecked in the Yards at Renovo.

Renovo, Nov. 17.—The eastb und Buffalo flyer, due here at 1.28 a m., was wrecked at Renovo and Engineer John Lovett was so badly scalded that he died a few hours later.

The accident occurred about 50 yards west of the station. Engineer Hoover, of Sunbury, who was in charge of a light freight engine, had his engine on the main track preparing to take out a train for the run to Sunbury. The flyer came into the yard at high speed and struck the engine with terrific force. The heavy train back of the engine forced the tender clear on top of the locomotive and both engines and two express cars were badly wrecked.

John Lovett, the engineer of the flyer, was thrown out of the cab and was frightfully scalded, both externally and internally. His fireman, a man named Snodgrass, had his shoulder dislocated. The injured men were taken to the Emergency hospital and Drs. Fullmer and Geah did all they could for the sufferers, but Lovett was so badly scalded that he died. He was a single man aged 48 years and is survived by two brothers and three sisters. This is the second accident recently that Lovett and his engine were in.

Engineer Hoover and his fireman were placed under arrest by Railroad Officer Rose. It is stated that they were warned that the flyer was on time and that they should stay off the main track, but they disregarded orders.

None of the passengers were injured, but they were severely jolted. The crew of the freight engine jumped and thus escaped injury.

Stamps for Each City.

A form of postage stamps with the names of the cities for which the stamps are issued printed on the face as part of the stamp is proposed under the terms of the bids for a new issue for the next four years, opened in the purchasing agents office of the postoffice department.

If the bid for the new style be accepted the post office department will order special stamps for the twenty-six largest postoffices, which the names of these offices, including the abbreviations of the states in which they are. For the remaining postoffices of the three higher classes—in round numbers, about 5,900 offices—ordinary postage stamps will be over-printed from electrotype plates across the face with the names of the post offices and abbreviated state names.

The proposal to make this change in design of the stamps is the result of an investigation by Postmaster General Cortelyou, who decided that there were many advantages to be achieved by printing the names of the postoffices on the stamps, and thus localizing them, the principal object for the purpose of identification. It is believed that the system of accounting in the stamp division can be greatly simplified by specially designating the stamps issued for the larger postoffices. In the supply division of the postoffices much difficulty is experienced under the present system.

Half a Hundred Deer Killed in Three Days.

Estimating from the few reports so far received, it is safe to say that not less than fifty deer have been killed in Centre county in the first three days of the open season. The first deer killed was by a party of State College hunters, who shot a three-pronged buck on Thursday not three miles from the college.

Friday a big deer came down off the Seven mountains right into the village of Baileyville, where it became entangled in a wire fence. It undertook to jump. By the time it got loose it was shot by Daniel Irvin, It proved to be a 200 pound doe.

Thursday and Friday four hunting parties encamped within a mile radius on Six-Mile run in the Alleghenies, bagged 10 fine deer and a bear. Hunting parties in the Scootac region and the Seven mountains have been equally successful.

The big killing so far is accounted for by the good tracking snow, which has lain on the mountains for a week, and it was an easy matter to trail the deer.

Bitter, or Sauer Kraut Week.

Last week was known throughout Lehigh county as "bitter, or sauer kraut week," and no sauer kraut was made because of the universal belief that this domestic product would become bitter if made during that time.

This superstition is as strong in that section as the faith in the influence of the moon or the various signs of the zodiac on various garden crops and vegetables.

Hundreds of Pennsylvania German housewives will positively refuse to plant certain vegetables or certain seeds unless the moon is just in the right quarter or there is no moon at all. The same is true as to the signs of the zodiac. The women are as familiar with all the signs, symbols and constellations of the zodiac as an ordinary astronomer, and they conduct their planting accordingly.

Register's Notice.

The following accounts have been examined, passed and filed of record in the Register's office for the inspection of heirs and legatees, creditors and all others in anywise interested, and will be presented to the Orphans' Court of the Centre County for confirmation on Wednesday, the 28th day of November A. D. 1906.

1. The first and final Account of Nellie Armor, Executrix of the Last Will and Testament of Mary J. Donovan late of Bellefonte Borough, deceased.

2. The first and final Account of Arthur L. Valentine, Administrator of the Estate of Eliza J. Valentine, lat of Bellefonte Borough, deceased.

3. The first and final Account of William J. Krape, Guardian of Mable R. Brinile, (formerly Arne), a minor child of Hasting S. Arney, late of Haines Township, deceased.

TRADE REPORTS GOOD

Business Expands Under Influence of Cold Weather.

PROSPECTS NEVER BRIGHTER

Transporting Facilities Are the Only Drawbacks — Output of Pig Iron Breaks Records and Steel Mills Have Contracts Far Into 1907.

New York, Nov. 17.—R. G. Dun & Co.'s Weekly Review of Trade says: Trade expands under the stimulating influence of colder weather, and mercantile collections improve, although rates for money continue high. Traveling salesmen send in large orders to leading distributing points, but movements or merchandise are still retarded by inadequate transporting facilities. Seasonable lines of wearing apparel and holiday goods attract most attention, while staple articles of every description are in steady demand. Current business is good and prospects for the future were never brighter. Labor disputes reach amicable settlement in most cases, wages being advanced in numerous transporting and manufacturing industries. The most striking development of the week was the unprecedented output of pig iron, in conjunction with large imports and advancing prices, indicating the greatest activity ever attained by steel mills. Other industrial reports were scarcely less gratifying.

Prospects in the iron and steel industry are bright beyond precedent. Contracts cover capacity of mills far into next year and in some cases to 1908, while the small tonnage that can be delivered promptly commands liberal premiums.

Textile industries are active, but the primary market for cotton goods has quieted down after the conclusion of initial purchases.

Recovery in wheat had the support of unsatisfactory receipts at the northwest, and although the small movement was probably due in large measure to the car shortage, it gave rise to smaller estimates of the crop in spring wheat states. Flour output continues to make a poor comparison with the milling returns of a year ago. An official statement further increasing the estimated corn crop prevented the cereal from participating fully in the upward tendency of prices.

Exports of grain for the week reported by Bradstrets are as follows: Wheat, including flour, exports from the United States and Canada for the week ending November 15 (San Francisco, Tacoma and Seattle missing, owing to wire trouble due to storm), aggregated 3,742,331 bushels, against 4,155,811 last week, 4,733,011 this week last year. For the past 20 weeks of the fiscal year the exports are 70,564,411 bushels, against 41,518,467 in 1905.

Corn exports for the week are 1,229,352 bushels, against 870,924 last week, 1,054,633 a year ago, and 139,978 in 1904. For the fiscal year to date the exports are 16,716,435 bushels, against 20,792,456 in 1905, and 10,299,864 in 1904.

Business failures in the United States for the week ending November 15 number 222, against 198 last week, 190 in the like week of 1905. Failures in Canada for the week number 31, as against 28 last week and 28 in this week a year ago.

GAME WARDEN ACQUITTED

Was Charged With Murder of Hunter Who Resisted Arrest.

Wilkes-Barre, Pa., Nov. 17.—Frank Rowe, a game warden, was acquitted in the criminal court here of murdering a man who was caught violating the state game laws. Rowe had placed Adam Ruscas, a hunter, under arrest for hunting on Sunday and for having game in his possession. The hunter resisted arrest, and in the fight Rowe shot and killed him.

Came Home to Find Wife Murdered.

Cleveland, Nov. 17.—When Albert Peters returned from work to his home in Payne avenue, he found his wife lying dead in her room, her head crushed in two places. Near her body was a bloody machinists' hammer. Everytring about the room indicated a terrific struggle. Furniture was overturned and blood spattered on the walls. Robbery, from all evidence at hand, was not the motive. Nothing in the bureau drawers or other places where money might be placed was ransacked. The police learned that Peters and his wife had always lived amicably together.

VERDICT IN CRAPSEY CASE

Episcopal Board of Review Reach Decision In Heresy Case.

New York, Nov. 17.—A decision was reached by the Episcopal court of review which has heard the appeal of Algernon S. Crapsey, D. D., from the verdict of the diocesan court of the western diocese of New York, which found the Rochester clergyman guilty of heresy.

The decision was not made public. It will first be served upon Bishop Walker, of the diocese of Western New York, and then communicated to the president of the standing committee of that diocese and to Dr. Crapsey. Following these formalities, the conclusions of the court will be made public at Buffalo.

Dr. Crapsey while rector of St. Andrews church at Rochester was placed on trial and convicted of heretical preaching. The case was promptly appealed to the Episcopal court of review, which finally disposed of it.

It is understood that the decision is based purely on questions of law, and is either a reversal of the diocesan court which convicted Dr. Crapsey or an affirmation of that conviction. It was intimated that the court had not felt itself, under the canon which created it, able to deal with matters of doctrine, faith or worship.

TO FORM NEW INSURANCE CO.

Agents of New York Life Will Quit If Administration Ticket Loses.

New York, Nov. 17.—That agents of the New York Life Insurance company are preparing to form an insurance company with a capital stock of $2,000,000 if the administration ticket of trustees of that company be defeated in the election now progressing was stated by W. O. B. Clifford, a general agent of the company in this city. Mr Cliqord said the agents intend to elect Thomas A. Buckner, now vice president of the New York Life Insurance company, as president of the new company, and that they have already subscribed to $1,100,000 if its stock. Only those agents employed on a commission basis are included, he said, in the new organization, which is called the New York Life Protective Association. This organization, Mr. Clifford said, has a branch in every state.

If the administration ticket be elected, Mr. Clifford said the agents would work for the election of Thomas A. Buckner as president to succeed Alexander E. Orr when Mr. Orr retires.

EMERY HEARING POSTPONED

Counsel For Both Sides Agree to An Indefinite Postponement.

Philadelphia, Nov. 17.—Following a conference between A. S. L. Shields and former Judge James Gay Gordon, the hearing of ex-Senator Lewis Emery, Jr., on the charge of criminal libel preferred by Senator James P. McNichol, which was to have taken place, has been indefinitely postponed.

The basis of the charge is that ex-Senator Emery, while on the stump in behalf of his candidacy for governor on the fusion ticket, declared that Senator McNichol bribed five Democratic members of the legislature in the session of 1901, giving them $15,000 each to vote for the Republican candidate for speaker.

HEARST SPENT $256,370

Defeated Candidate For Governor of New York Files Expense Account.

Albany, N. Y., Nov. 17.—William Randolph Hearst, the Independence League and Democratic candidate for governor, certified to the secretary of the state that he had spent $256,370 in promoting his canvass. This was divided as follows: Independence League, $198,870; Democratic state committee, $57,000; travelling expenses, $500.

His Head Crushed By Fly Wheel.

Pittsburg, Pa., Nov. 17.—Louis W. Kirkland, 33 years old, employed in a confectionery store, had his skull ground off by being caught in the spokes of a fly wheel and died almost instantly. Kirkland, with several other employes, was trying to start a gas engine in the ice cream manufacturing department of the establishment, and Kirkland took hold of the fly wheel to throw it over. His head was between the spokes of the wheel, when the engine started suddenly, crushing his skull. He fell with a choking moan and was being dragged farther into the machinery when it was stopped.

Workmen Blown to Pieces.

Bedford, Ind., Nov. 17.—The powder house of a cement company at Mitchell, Ind., exploded, killing two men. Several others were injured. The shock was felt several miles. William Taylor, an employe, started to open a box containing dynamite. Concussion from the blows of an axe set off the explosive. Taylor was blown to pieces, parts of his body being found several hundred feet away.

NUGGETS OF NEWS

The Bank of Henderson, Ia., was dynamited by robbers, who escaped with $3000.

Charles E. Grant, a negro, was hanged at Washington, D. C., for killing Sva Barnes, also colored.

Luxuries were purchased by the United States from abroad to the extent of $100,000 during the fiscal year 1906.

Mike Ward, the pugilist, died at Grand Rapids, Mich., as the result of a knock-out in a fight with Harry Lewis, of Philadelphia.

While suffering from rheumatism, George Seafle shot and killed himself in the presence of his 86-year-old mother in his home in Philadelphia.

More Wages Increased.

Chicago, Nov. 17. — The movement towards higher wages which has been in progress throughout the country for several weeks, received another impetus when the Chicago & Alton railway announced a 13 per cent. increase in pay, retroactive to November 1, for all its switchmen. The new advance applies to every yard employe of the company and represents a horizontal increase in pay. Aside from these employes, 100,000 employes of western railroads are negotiating for higher wages, and it is said the directors are considering a general advance in wages.

Strike-Breakers at Morea Colliery.

Mahanoy City, Pa., Nov. 17.—Strike-breakers arrived at the Morea colliery of the Dodson Coal company to take the puaces of the steam hands who struck out of sympathy with the miners who went on strike.

F. E. MARRIN ARRESTED

Wanted For Storey Cotton Company Failure in Philadelphia.

CAUGHT BY P. O. INSPECTORS

Consents to Waive Extradition and Will Be Taken to Quaker City—Was Captured In a Hotel at Buffalo, N. Y.

Buffalo, N. Y., Nov. 17.—Francis E. Marrin, alias Franklin Stone, one of the principal figures in the Storey Cotton company failure in Philadelphia in 1905, was arrested here in the lobby of the Genesee hotel. Marrin disappeared from Philadelphia on March 17, 1905, when the post office department raided the Storey Cotton company, and since then he has been in Europe. He came back to America but t few weeks ago and the vigil the postoffice authorities have kept for nearly two years ended with his arrest. He is wanted for using the mails to defraud, and is said to have left Philadelphia with over $1,000,000 of the Storey Cotton company's funds.

Marrin arrived in Buffalo three days ago. He registered at the Genesee hotel under the name of James Johnstone. W. J. Bickery, chief postoffice inspector at Washington, had been tracing Marrin's movements since his return to the United States, and Postoffice Inspector Cortelyou, who has charge of the Philadelphia district, came to Buffalo to get his man.

"It's all off," was Marrin's only comment when the officers located him and placed him under arrest. Later he consented to waive extradition, did not want an attorney and said he wanted to get back to Philadelphia as soon as the inspector could take him there.

Since 1905, he said, he has been in Europe. He visited London, Paris, Berlin, Brussels and Amsterdam. On Marrin's person were found check books of London and Paris banks. Marrin has a wife and two children in New York. He will be arraigned before United States Commissioner Keating, and probably will be at once taken to Philadelphia. He spent the night at police headquarters.

WON'T TRY GREEN AGAIN

Government to Drop Case Against Former New York State Senator.

Washington, Nov. 17.—Former State Senator George E. Green, of Binghamton, N. Y., will not be tried upon the remaining indictment standing against him, charging him with bribing George W. Beavers in connection with the sale to the post office department of time recording clocks. This statement was officially made at the office of the United States district attorney. It was stated that in the first trial of Green all the testimony the government had in its possession in regard to the several transactions involving Beavers and the International Time Recording company was offered to the jury. The jury having acquitted Green, it was stated that the government deems it not probable that another jury would convict him upon this same evidence, and therefore it would be inexpedient to try him again.

LETTER WRITER ARRESTED

Charles Malone Was Annoying Pennsylvania Judges.

Wilmington, Del., Nov. 17.—Charles Malone, aged 37 years, who says he is a son of Richard A. Malone, a contractor of Lancaster, Pa., was arrested here on the charge of sending annoying letters to the judges of the supreme court of Pennsylvania. The letters, which were mailed from different cities, referred to an imaginary estate in which he thought himself interested. The postal authorities of Philadelphia caused the man's arrest. He is supposed to be mentally unbalanced.

Negroes Can't Use Elks' Name.

Macon, Ga., Nov. 17.—Judge A. L. Miller rendered a final decree in injunction proceedings of the Macon Lodge of Elks against T. H. Thomas, Pete Worthy and a score of other negroes in this city, restraining them from using the name, title and insignia "Improved Benevolent and Protective Order of Elks of the World," or any similar name in any negro order in Bibb county or within the state of Georgia. The negroes will appeal the case and make their final fight in the state supreme court.

Heiress to $500,000 Died In Poverty.

Atlantic City, N. J., Nov. 17.—A search in this city by agents of the Italian government for Constanta Majestre Benedette, who was left a fortune of $500,000 by a wealthy uncle in Italy, ended with the discovery that the young woman died in poverty here three years ago. Miss Benedette and her uncle had a misunderstanding and she came to America. There was no correspondence between them. She was a favorite of her uncle, however, and when he died he left her his fortune. The body will be shipped to Italy.

Condemned Man Fought Desperately.

Milledgeville, Ga., Nov. 17.—With the fury of a tiger, Mims Devereaux, a negro, fought the sheriff and his deputies, who entered his cell to escort him to the scaffold. After a hard fight the negro was overcome and was later hanged. Previously he had tried unsuccessfully to kill himself with a broken glass bottle. Devereaux was convicted of killing another negro in a card game.

HIDDEN DANGER.

Nature Gives Timely Warnings That No Bellefonte Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine, full of ediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cures sick kidneys and cure them permanently. Here's Bellefonte proof.

Mrs. Nancy Davis, of 246 East Logan Street, says: "I suffered a bad fall some years ago when living in Rochester. I thought at first that I had broken my back. I was unable to get up without assistance and from that time I suffered for years with a weak back and excruciating pains through the loins and through the small of my back. Sometimes I was completely prostrated and helpless. Doctors and medicines failed to help me and the pain continued until I got Doan's Kidney Pills. I took only a few doses before I began to feel better and when I had continued using them for a while I was thoroughly cured. My back regained its strength and the pain left me. I have had no return of the trouble since."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

Remember the name—Doan's—and take no others

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right

Dancing Proves Fatal

Many men find women catch colds at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates the digestive organs. Cures chronic constipation. Ask us about it C. M. Parrish.

Good for everything a salve is used for and especially recommended for piles. That is what we say of DeWitt's Witch Hazel Salve. On the market for years and a standby in thousands of families. Get DeWitt's Sold by Green's Pharmacy.

This is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. C. M. Parrish.

Need a good cathartic? A pill is best. Say a pill like DeWitt's Little Early Risers. About the most reliable on the market. Sold by Green's Pharmacy.

Charm Of Clear Complexion

Every one who wants a good, healthy color, a ruddy glow, and a complection free from pimples and moth spots should try Laxakola tablets, mild, safe, sure, prepared from vegetable laxatives with a selective action upon the skin. 25 cents C. M. parrish

THE WOMAN WHO COUGHED.

Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took $1.00 bottles. Now I'm like a girl of 18.
MISS L. L. CLARK, Indianapolis.

IMMIGRANTS CREMATED

Forty-Seven Persons Burned to Death In Wreck on B. & O.

45 BODIES CONSUMED BY FIRE

Passenger Train and Freight Collided At High Speed, and Victims Pinned In Debris Were Burned to Death in Sight of Rescuers.

Chicago, Nov. 13.—More than one-half the passengers on an immigrant train on the Baltimore & Ohio road were killed and injured in a collision between the passenger train and a freight near Woodville, Ind.

One hundred and sixty-five passengers were on the train. Of these 47 were either killed outright or were burned to death in a fire that broke out in the wreckage immediately after the collision. The names of all of the dead will probably never be known as 45 of the bodies were consumed in the flames or were so badly burned that identification will be out of the question.

Thirty-eight people were injured, and several of these will die. Eighty others escaped unhurt, but lost nearly all their baggage and clothing.

The disaster was caused by a blunder of some employe of the railroad company, but just where the blame lies has not as yet been determined. The passenger train, which was loaded with Russian Jews, Servians and Poles, all of them recent arrivals in this country, and bound for Chicago or places in the northwest, was the second section of a through train from Baltimore.

A light snow was falling, and as the freight was rounding a sharp curve just west of Woodville the second section of the immigrant train came in sight a short distance away, tearing toward Chicago at the rate of 40 miles an hour. The two trains came together with unslackened speed, and in the crash six passenger coaches and several freight cars were knocked into kindling wood, and, together with the locomotives, went rolling down the 10-foot embankment.

Fire broke out almost immediately in the wreckage, and although a number of the injured were saved by the desperate efforts of the train crew and surviving passengers, the greater part of those who were pinned down in the debris were burned to death. The flames spread through the wreckage so rapidly that it was impossible to save a number of people who were only slightly hurt, but were held fast by timbers that weighted them down. These were burned in plain sight of the throng that stood around the scene of the disaster, utterly unable to lend assistance in any way. The fire continued until all of the shattered cars were entirely consumed, and of the 47 people whose death followed the collision, 45 were burned to ashes. All of the six cars of the immigrant train were burned, as were three freight cars.

The depot in Chicago was crowded with men and women who had come to this country to escape the massacres in Russia, and who, after months of hard work, had saved enough to pay the passage of members of their families, and their grief, when they became aware that possibly all their sacrifice and effort had resulted only in the death of those whom they had sought to bring to them, was pitiful. Crowds of Russians and Poles waited aroung the depot all day for news from Woodville, and when a train came in bearing the 38 injured persons, all of whom were taken to Mercy hospital for treatment, it was with the greatest difficulty that the police were able to open a passageway for the wounded.

Five Men Shot and Killed.

Bluefields, W. Va., Nov. 13.—Tom Miller, a workman at the Mason & Munday railroad camp, shot and killed two companions during a dispute over a game of cards. After the shooting he escaped and the police have been given his description. Constable Bursult at the United States Coal and Coke company shot and killed three of the company's negroes. The men resisted arrest and the officer in order to protect himself was compelled to shoot them. The shooting was the result of a drunken brawl.

PITTSBURG'S EPIDEMIC OF CRIME

Reign of Lawlessness Continues and Robberies Are Numerous.

Pittsburg, Pa., Nov. 15.—The reign of lawlessness in this vicinity continues, and the hundreds of police, city detectives, county detectives and private agencies are apparently still unable to stop the depredations which are almost hourly reported to them. With the past 24 hours the list shows a greater number than any like period since the "epidemic" began.

A negro entered the home of Mrs. Mary Kelly, in the Herron Hill district, while the woman was alone. He locked the door and leisurely ransacked the house, filling a basket with bric-a-brac and taking a considerable sum of money. He threatened her with death if she made an outcry or attempted to follow him and then disappeared. The terrified woman obeyed the negro's instructions for several hours and then notified the police authorities.

Mrs. A. Nigus was relieved of her purse containing $20 at Fifth avenue and Smithfield street, the most prominent corner in the city.

The nation store of Mrs. J. J. Freund, on the South Side, was burglarized and hundreds of dollars worth of goods taken. James Thompson was assaulted and robbed at Milvale, a suburb, and was found on the street in an unconscious condition by the police. The residence of William A. Clingensmith, in the East End district, was thoroughly ransacked and much clothing stolen. At the home of Harry Harvey, at Etna, a suburb, two attempts were made to jimmy open windows, and Mr. Harvey fired several shots at the thieves. He then sat at a window during the rest of the night with a shot gun.

Hardware and gun stores all over the city report a heavy sale of revolvers. A majority of the men who are compelled to be on the streets late at night are armed, while many people are remaining indoors unless their business is urgent.

CARSON ASKS MORE QUESTIONS

Seeks Information From Pennsylvania Capitol Contractors.

Harrisburg, Pa., Nov. 15.—Attorney General Carson resumed his investigation into the allegation that the state paid twice for the vaults in the auditor general and treasury departments of the new capitol. Mr. Carson sent a letter to ex-Governor Stone, president of the capitol building commission, stating that in the original contract with Payne & Co. for the construction of the capitol, this firm was to furnish these vaults, but that it is found that $66,000 was paid by the board of public grounds and buildings to the Pennsylvania Construction company for furnishing them. Mr. Stone is asked

JOHN MITCHELL RENOMINATED

Mine Workers' Leader Will Not Retire From Union.

Indianapolis, Nov. 13.—All doubts as to whether President Mitchell intends continuing as president of the United Mine Workers of America or not have been set at rest by the announcement that Mr. Mitchell has been renominated for the office, and that he will permit his nomination to stand.

Terribly Burned by Molten Steel.

Youngstown, O., Nov. 13.—One man was killed, three fatally and two seriously injured in the explosion of a casting at the Youngstown Foundry and Machine company's plant. Michael Key, a furnace man, was terribly burned and was killed. The men were making a steel casting. They had filled a five-foot pipe mold with molten steel and were gathered around it when it burst with a terrific explosion. Molten steel was thrown all over the foundry and fell like rain on the men gathered around the casting.

TERRORIZED BY CRIME

Pittsburg Police Apppear Helpless To Check It.

ROBBED IN BROAD DAYLIGHT

Woman Assaulted On Crowded Street and Assailants Escaped—100 Extra Policemen Sworn In and Vigilance Committee Appointed.

Pittsburg, Pa., Nov. 13.—Emboldened by the apparent helplessness of the police and detective forces of the city the highwaymen and burglars that have terrorized this city for the last 10 days have apparently extended their operations into broad daylight, as well as working under cover of darkness. At 4 o'clock in the afternoon at the corner of Sixth avenue and Wood streets, one of the most crowded spots in the heart of the city, and within a few hundred feet of police headquarters, Mrs. A. G. Boykin was assaulted and robbed by two men, who made their escape. The men had been following the woman, according to her story, and as she turned the corner they separated. One hurried in front of her, while another walked immediately behind. The latter grabbed her about the waist, while the man in front wrenched her muff and purse from her hands and made off. She was thrown to the sidewalk and sustained severe bruises. After reporting the mater to the police Mrs. Boykin was taken home, where she is suffering from the injuries and shock. There is no clue to the assailants.

In the meantime trade and business organizations are holding indignation meetings and drawing up petitions to the mayor and the police officials. The murder of Harry Smith in the East End by burglars has aroused that section, and a meeting of the East End board of trade was held, at which a vigilance committee was appointed. A resolution warning citizens to arm themselves and recommending the purchase of several bloodhounds was presented to the board, and this was referred to the newly appointed committee for action.

Newspapers are offering rewards of $1000 for the arrest of each or any of the slayers of James A. McMillen, who was killed a week ago, or of Harry F. Smith.

A man who gave his name as Charles Bucini has been arrested, suspected of being the murderer of Smith. Bucini had been shot through the right hand, and it is supposed that he was wounded by Smith and dropped the revolver which is now in the possession of the police. In an effort to calm the community the police are withholding all the information possible.

At a meeting of select and common councils a message from Mayor Guthrie was read urging the need of more police at once. All business was cast aside and a bill was railroaded throufh authorizing the director of public safety to at once put on the police payroll 100 more patrolmen.

Claim They Were "Shanghaied."

Norfolk, Va., Nov. 13.—Nine men, alleging that they had been held in slavery on board the Chesapeake bay oyster dredge James A. Whiting, off Tangier Island since they were "shanghaied" from Richmond and placed aboard the Whiting October 3, were rescued Sunday by Deputy United States Marshals West and Miller and landed in Norfolk. The deputy marshals with the nine men, John Pruett, arrested upon a charge of having been implicated in the "shanghaieing" of the men, and several others, were making for Onancock in a small launch, when a storm arose and the launch almost capsized. One man became almost crazed from fright and tried to shoot himself.

Heavy Snow In South Carolina.

Spartansburg, S. C., Nov. 15. — A heavy snow storm raged here, accompanied by biting north winds. The temperature dropped to 22 degrees and many water pipes in residences are frozen. In addition to the damage to the cotton crop, much of which has not been gathered, it is feared that there will be great suffering among the poor, as there is a shortage of wood and coal in this section.

Gets Ten Years For Robbing U. S.

Seattle, Wash., Nov. 15.—Frederick Adams pleaded guilty to robbing the United States assay office in Seattle and was sentenced to 10 years at hard labor in the federal penitentiary at McNeil's Island. He pleaded guilty to two counts charging the theft of $35,000 worth of gold dust. It was originally reported that the thefts amounted to over $200,000.

German Care of Landscapes.

Most German states have laws to prevent the disfigurement of landscapes by advertisements. The district authorities are authorized to determine what landscapes, buildings or monuments of historical or artistic value should be protected. Violations of the statute are made punishable by fine, with or without imprisonment. The statute provides against the display of pictures, advertisements or other things calculated to mar or disfigure any especially attractive landscape or detract from the artistic or aesthetic effect of any building or other structure of special importance or as highly prejudicial to any street or part of a city. The alteration of buildings of historical or artistic value may be prohibited by the local authorities, as may the construction of other buildings calculated to interfere with such historical monuments.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure,
F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney, for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.
Walding, Kinnan & Marvin,
Wholesale Druggists, Toledo, O

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

CROSSED THE ISTHMUS

President Warmly Greeted as He Passed Through Canal Zone.

TRIP AROUND PANAMA BAY

After Inspecting Much of the Canal and Culebra Cut, Mr. Roosevelt Was Welcomed By Cheering Crowds In Panama City.

Colon, Nov. 16.—President Roosevelt has spent a busy day on the Isthmus of Panama and spent the night at the Tivoli hotel, on the line of the canal. He has crossed from Colon to Panama, seeing much of the canal and the famous Culebra cut on the way, he has taken a trip around Panama bay, and he has been welcomed in Panama City, which lies outside of the canal zone, by President Amador and other officials of the Panaman republic. The day passed according to schedule, it has been in every respect successful, and no untoward or unexpected incident has occurred.

President Roosevelt left the Louisiana and came to the Colon dock. Here he was welcomed by Canal Commissioner Shonts, Chief Engineer Stevens and other officials, and the school children of Colon sang "The Star Spangled Banner" and "America" for his benefit. A few minutes later President Roosevelt was greeted by President and Mrs. Amador and the bishop of Panama, and then left Colon for Panama by train.

The trip across the Isthmus was made solely in order to permit the presidential party to have a good look at all the points of interest along the route. Several stops were made on the way over, and at each station the school children came down and sang patriotic airs. The president thanked all the welcoming delegations warmly. At La Boca, the Pacific entrance to the canal, President Roosevelt boarded the steamer Bolivar, made a trip around Panama bay and came back to La Boca for lunch.

Later the president came from La Boca to Panama City. He drove from the railroad station to the Cathedral Plaza, welcomed all the way by the cheering of the crowds. At the plaza President Amador delivered an address of welcome and President Roosevelt replied. There was then further singing of patriotic airs by school children, after which the president, escorted by the officials of the Panaman republic and a body guard of 200 mounted members of the Panaman aristicracy, returned to the Tivoli hotel for the night.

President Roosevelt was welcomed with unbounded enthusiasm by the people of Panama, and there is no question that they are his firm and sincere admirers. He has conquered them and he holds a high place in their esteem. While passing over the line the presidential train was cheered by the crews of trains removing dirt from the cut, and in Panama bay the American and other steamships whistled and cheered him a welcome.

—A specific for pain—Dr. Thomas Electric Oil, strongest, cheapest, liniment ever devised. A household remedy in America for 25 years.

Give children a remedy with a pleasant taste. Don't force unpleasant medicine down their throats. Kennedy's Laxative containing Honey and Tar is most pleasant to take. Children like it, and as a relief for colds, coughs, etc., there is nothing better. No opiates. Conforms to National Pure Food and Drug Law. Sold by Green's Pharmacy.

Here's Just the Right Bowel Laxative

Gentle, Sure—Pleasant to Take—A Tried and True, Genuine, Nature's Remedy.

If you do not have free, easy and regular movements of the bowels you lack the prime and first essential of good health. There's more harm done than mere uncomfortableness, sickishness and bilious ness—retention of fecal wastes in the bowels pollutes, irritates and poisons. You make the circulatory system—the blood—a scavenger instead of a fountain of purest health and tainted vitality. The ills of constipation are not trifling nearly always are frauds with vital significance. Seek your relief Nature! Accept gentle, natural aid of Lax-ets. Be sure not to force action crowd the delicate organs of the stomach! Avoid all the danger of powerful and unknown medicines! Your safety and your health always secured—if you take Lax-ets. The formula is on every box—show it to your family physician. Lax-ets are put up in a flat mints ease in handy tablet form—one tablet taken before meals or on retiring always brings relief. Pleasing to take—the most potent yet gentle all remedies—a genuine help of Nature's own bowel laxative which cures constipation. Recommended and for sale by

GREEN'S PHARMACY CO.

Will Build No More Wooden Cars.

Philadelphia, Nov. 16.—The Pennsylvania Railroad company has decided to place an order for 100 all-steel, non-inflammable passenger cars. It is the company's intention to build no more wooden cars, and the decision to build steel cars was hastened by the building of the New York tunnel, through which only absolutely fireproof cars will be run. The Pullman company, at the instance of the Pennsylvania Railroad company, is now working on an experimental all-steel, non-inflammable sleeping car. About 500 of these cars, it is stated, must be ready for service by the time the New York terminal is completed.

Bourke Cockran Weds Miss Ide.

New York, Nov. 16.—Representative Bourke Cockran and Miss Annie Ide, daughter of Henry Clay Ide, formerly governor general of the Philippines, were married by Rev. Father McKinnon, of St. Ignatius' church, in the Hotel St. Regis. The drawing room, where the ceremony took place, was converted into a chapel with bowers of ferns, smilax and palms dotted with white chrysanthemums. Miss Marjorie Ide, the bride's sister, was maid of honor. Former Governor Ide gave the bride away. Supreme Court Justice Keogh was Mr. Cockran's best man.

Given Four Years For Fraud.

Norfolk, Va., Nov. 16. — Max Felstein, of Newport News, Va., who confessed to concealing $4000 in stock from a trustee in bankruptcy and shipping the same to New York, where he was arrested, was given the maximum punishment of four years in the Atlanta, Ga., penitentiary.

CATTLE DEALER MISSING

It Is Feared David Williams Was Murdered and Robbed at Poyntelle, Pa.

Scranton, Pa., Nov. 16.—David Williams, a wealthy cattle dealer of Lancaster, Pa., is reported to be mysteriously missing from Poyntelle, where he arrived last Friday to buy cattle. When the farmers of that region came with their cattle that Williams had bought they failed to find him at the three cattle cars which he had switched near the Poyntelle station, and when a search was made for him at the hotel his room was found locked. The door was burst open, but Williams was not within, although his baggage was there. It is feared that he has been murdered and robbed, as it was generally known that he carried a large amount of money with which to pay for the three carloads of cattle.

DECORATIONS CAME HIGH

Ceiling 15x23 in the Pennsylvania Capitol Cost $5481.

Harrisburg, Nov. 16.—State Treasurer Berry said that the itemized bills for decorating the new capitol show that $15,284.68 was paid to John H. Sanderson & Company, of Philadelphia, for decorating the walls and ceilings of the five rooms in the treasury suits. Mr. Berry also said that Sanderson was paid $5481 for decorating the ceiling of his private office, the dimensions of which are 15x23, and that in his judgment the prices were excessive.

Threatened With Exile to Siberia.

Pittsburg, Nov. 16.—In a letter to her daughter, received here, Mrs. Mary Deering, living in an interior town of Russian Poland, says that the Russian government has threatened her with exile to Siberia, or an alternative of a $3000 fine, unless her son Albert comes back to Russia to serve in the army. The three Deering children, Albert, Mary and John, came to this country three years ago. About four months ago Alberit died. According to the letter the Russian government refuses to believe the boy is dead and intends to punish his mother. The physician who attended Albert in his last illness has prepared the necessary papers proving the death, and these papers were sent to Baron Rosen, the Russian ambassador.

"Public Health Defense League."

New York, Nov. 16.—"The Public Health Defense League," a national society for the protection of health and morals, was formed at a meeting held under the auspices of the New York County Medical Society. Austen G. Fox presided. He said the time had come for the people to recognize the evils that are confronting society through fake medicines. Effective work against this evil could only be done, he said, through united effort in the form of a national society.

MAYOR OF FRISCO INDICTED

Eugene Schmitz and Abraham Ruef Charged With Extortion.

San Francisco, Nov. 16.—The grand jury returned five indictments against Mayor Eugene Schmitz and Abraham Ruef on charge of extortion. On each charge the bail was fixed at $10,000 and bond at $5000.

The first alleged crime was in connection with the Poodle Dog restaurant, and the indictment recites that Ruef and Schmitz demanded money from the proprietor, Tony Banco. As this demand was made, it is said, on two occasions, two indictments were returned. Extortions are said to have beeen practiced on Eduard Marchand, proprietor of Marchand's restaurant, also. A demand was made upon Joseph Malfanti, another restaurant man, and is the alleged offense on which the fifth indictment was found.

TEACHER'S PENSION BILL

Will be Submitted to Superintendents for Opinions.

The commission which has been entrusted with the preparation of bills to be presented to the Legislature to secure pensions for school teachers throughout the state has submitted two measures. They are to be transmitted to the county, city and township superintendents and others for opinions.

One of these acts proposes that the state shall appropriate money and control a direct retirement fund, and the other provides that the separate school districts shall be authorized and empowered to creat such a fund. The state plan has been tried only in Maryland, where teachers are retired on $200 a year. The district plan is not uncommon. It prevails to some extent in quite a number of states, and Philadelphia has created a retiring fund which will be effective at the beginning of the coming year.

It will be impossible for the Legislature of Pennsylvania to make a direct appropriation from the state Treasury to a pension or retirement fund. The Constitution of the state provides that "no appropriation, except for pensions or gratuities for military service, shall be made for charitable, educational or benevolent purposes to any person or community." It does not seem possible there can be any misunderstanding of that provision. It makes useless any consideration of one of the bills now proposed.

The other method suggested is entirely feasible, and may be greatly promoted by proper legislation. It may be possible also for the state to assist by indirection, as it does in the case of the firemens' pension fund. The teachers' cause will very properly have quite as much sympathy and willingness back of it, but in the expectation of state help it will be wise to proceed with great caution, as it would be very easy to take steps that could not be supported if the constitutional question should be raised.

All phases of the matter should be taken into consideration, because nothing is more certain than that the next Legislature will be asked to take this matter up, and popular sentiment back of a deserving claim will demand the most favorable action possible.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

375 Pound Corn Stealing Bear Killed.

One of the colony of bears that have been devastating the cornfields and making the farmers sit up nights with guns to guard their crops in the vicinity of Calvert-Lycoming county, has at last bit the dust, and another one has been wounded. Yesterday morning about 10 o'clock, near Gotner's Hollow, I. H. Southard, Elmer VanHorn, John Redfoot, J. Michaels and Tod Loweslew a monster that weighed exactly 375 pounds, and the corn shocks will be safe from this fellow no last. The same hunting party yesterday wounded another member of the bruin family in the same vicinity, which would weigh as much if not more than the one slain. But this one got away, and Mr. Southard says he fired at least five of the fifteen shots that entered the body of the fleeing bruin. The party will again start out this morning in pursuit of the escaped bear.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Home of Swamp-Root.

Don't make any mistake, but remember the name **Swamp-Root,** Dr. Kilmer's **Swamp-Root,** and the address, Binghampton, N. Y. on every bottle.

The Bellefonte Republican

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write uponbut one id e of the paper. and avoid the use of pale r fa ncy inks.
EARLE C. TUTEN.

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—Fashion makes cowards of us all.

—What a man loves the most he praises with great caution.

—A sense of humor is one of the best friends a man can have.

—Dandies are morally hybrid, and I guess they are other ways, too.

—Alexander Miller of Shingletown, was thrown off a load of corn fodder Friday morning and broke his leg.

—Hon. P. Gray Meek is going to establish a private sanctum on the third floor of his building. He is fitting it up with all the latest office furniture, and he received Friday a new typewriter desk.

—Mr. Benner Graham moved his family Thursday to Philadelphia where he expects to make his future home. Mr. Graham has been a life long resident of Bellefonte and his many friends were much surprised to hear of his leaving town. We are sorry to lose the Graham family from our midst.

—A Delaware farmer's family enjoyed a rare treat at their Thanksgiving dinner in the form of fresh corn on the cob. The stalks had been pulled up root and all, with the green roasting ears on them and buried in a shock of corn from which they were taken in perfect condition and served on the Thanksgiving table.

—The Women's Christian Temperance Union desires to call the attention of the public to the fact that the fourth Sabbath of November will be observed as the World's Temperance Day. It is especially desired that ministers and Sunday school superintendents pay attention to the day, the former by preaching temperance sermons and the latter by arranging special programs for their schools.

—John Garrison, Walter Boyer, Edward Boyer, Charles Biebl and Robert Strunk, of Panther Run, Thursday hunted for rabbits near Snow Shoe, and shot three of them apiece. They had an uncommon experience, seeing a bear that had been shot by Snow Shoe hunters near Panther Run, after it evidently had a terrible encounter with a steel trap One of bruin's fore legs was torn clear off. The bear was a 300-pound one.

—It's only about six weeks until Christmas and the merchants who are not already in the way of advertising want to get there quick. Blowing your own horn is guaranteed to make things fall down before you. The horn-blower has been in business, steady, ever since the Old Testament times when the Jews captured the walled city of Jerico by the blowing of horns and shouting, the walls falling flat before them.

—We would like to make a protest against some of our young ladies concealing a very pretty forehead behind a lot of loose hair. It may be fashion—but hang fashion if it is going to damage the looks of a pretty girl or woman. A fine forehead is something to be proud of and we cannot spend so much time and waste so much ingenuity trying to make it appear that the Almighty had made them as destitute of forehead as an indian.

—The early extension of their trolley from Huntingdon to Mt. Union and also across the river to the Pennsylvania Industrial Reformatory is being planned by the Juniata Valley Street Railway company. Application for additional charter privileges, under the name of the Juniata Valley Street Railway company, covering the necessary rights of way through the boroughs, villages and township necessary to link Huntingdon and Mt Union together by an interurban electric railway, will be made to Governor Pennypacker on the sixth day of December. The necessary papers have been made out and forwarded to Harrisburg by Messrs. W. H. and J. S. Woods, attorneys; the incorporators being R. W. Jacobs, H. E. Steel, and F. Blair Isenberg, of Huntingdon; George C. Wilson, of Tyrone, and Wallace Wilson of Alexandria.

—The passing of Elizabeth Furnace as a station on the line of the Pennsylvania railroad recalls the fact that there is possibly no place of like size in the state that is known by as many names. As a station it will pass out of local railroad history on the 25th of the present month. But as Elizabeth Furnace it will remain a place of memory to many. At the station itself there are but few houses, and the station house is but a mere shed. To the people who patronize the Altoona and Logan Valley Electric railway the place is known as Pinecroft. To the people who live east of Pinecroft it is known as Antis. Then to a few it is best remembered as Salem, which is the name given to a small number of houses which are situated nothwest of the old Salem church. To the government it is known as Sabbath Rest, that being the name of the postoffice.

—Charles McClellan, the tailor is confined to his home by a severe cold.

—The old skating rink building at the Ardell lumber yard is being torn down.

—Communion services will be held in the Reformed church at Zion, next Sunday at 2:30 p. m.

—Prof. and Mrs. Frederick Hillary of State College are rejoicing over the arrival of a bouncing baby boy.

—The Misses White and Crissman will give a dance in the Bush Arcade hall on Thanksgiving night from 9 to 12 o'clock. Christy Smith's famous orchestra will furnish the music.

—Mrs. Catherine Archey, of Pennsylvania Furnace, fell down the cellar stairs at her home Thursday night cutting a deep gash in her head. She is reported now as resting comfortably. She is 78 years of age.

—The hunters from State College can claim the honor of killing the first deer reported this season. Thursday, the first day of the season a three pronged buck was killed in the mountain above Shingletown

—James Sharp and family moved their goods last week to Pitcairn where they will make their future home. Their house on Lamb street will be occupied by W. H. Musser's son and his family who are moving here from St. Louis.

—Deer must be plentiful about State College. Friday a deer came out of the barrens and became entangled in a wire fence right in the village of Baileyville. It was shot by Dan Irvin. It was a doe and weighed 200 pounds.

—The following is the report of three different hunting parties from Curtin twp, Robt. Mann and party three deers, George Weaver and party two deers and one bear, Charlie Daley and party one deer and one four hundred pound bear.

—Flannels should not be hung to dry in the sunshine, but in a shady spot and they should be washed and dried with as much speed as possible. Some people advise no wringing, merely allowing the woolen garments to drip from the, line, in order to avoid shrinkage.

—An emergency drawer is found to be a very practical feature of a household, In it should be kept scissors, court plaster, absorbent cotton, vaseline, a roll of soft linen, an anticeptic of some sort—such necessary articles as can be found at once without looking through a medicine closet.

—The Bellefonte Academy foot ball team in the game with the Good Will boys at Athletic Park at Philipsburg on Saturday afternoon came off conquerors by a score of 10 to 0. The attendance was fairly good, and would no doubt have been larger but for the threatening weather.

DIED—Henry Jasper Gill, the son of Edward and Ella Gill, of Morristown, died Sunday at 10 a. m,, aged ten years, seven months and four days. The funeral took place Wednesday morning at 9 o'clock from the residence of the parents Rev. W. H. Spangler, pastor of the United Brethren church officiated. Interment in the Union cemetery.

—Miss Otillie Hughes, youngest daughter of Rev. James P. Hughes, was married at noon Friday to Chester A. Irvine, of Lake Charles, Louisiana. The wedding took place in Washington, D. C., and immediately after the ceremony the young couple left for the bridegroom's home in the south. The bride's father and brother, James, attended the wedding.

—The United Evangelical church at Hublersburg having been remodeled and repaired, special re-opening services will be conducted on Saturday evening and Sunday morning and evening, Nov. 24 and 25. Rev. W. M. Stanford, D. D., of Harrisburg will have charge of the services. On Sunday afternoon Nov. 25. A rally will be held in the church at Nittany Hall. We invite all friends and neighbors to attend these services.
H. A. Snook, Pastor.

—For several days past a stray car of dynamite has been giving the railroaders and the residents living in the vicinity of the B. R. & P. yards, here, considerable uneasiness. It was brought here and none knew its destination, so we are told. It was side tracked, and at a point near the Elk Run brewery, it jumped the track, and there it remained for several days. Some of the residents moved away from that community until the car is got back on the track again and hauled away. A stray car of dynamite is certainly not a very welcome visitor in any community, and especially one that has jumped the track.—Punxsutawney News.

—"All aboard" is now official. The Pennsylvania Railroad company has issued an order that all brakemen Pullman conductors and porters must call out these two words in a distinct voice exactly two minutes before the trains leaves division terminal stations. At large towns, where trains stop several minutes, passengers have had way of leaving the train and strolling up and down the platform. There are apt to wait until the minute of starting to re-enter the train. The present, "all aboard" order is meant to get all the passengers inside before the wheels begin to move and thereby add to the safety of passengers by eliminating the risk incurred by one who boards a car that is under way.

—The work on the new Reformed Chapel is progressing finely.

—John L. Knisely is quite ill at his home on South Thomas street. He is suffering from inflammatory rheumatism.

—Louis Miller, the sixteen-year old son of Mrs. Louis Miller, while at work at Crider's planing mill Wednesday had two fingers cut off one of his hands by coming in contact with a circular saw.

—The Commissioners of Centre county have decided to hold the coming Spring primary elections in the same manner as heretofore. The Attorney General has filed an opinion making it discretionary with the Commissioners whether they do so or not. To hold the Primary election under the new law would necessitate the buying new ballot boxes and means considerable other extra work. And coming as it does at the begining of the year just the busiest season it was decided that it would be better to hold the Spring primaries under the old law and thus avoid considerable confusion and trouble

—The Earon hunting camp is located near Eagleton in the Scootac region and the party is composed of W. H. Earon, of Unionville, Joe Grove, Frank Kurtz and Joe H. Earon. The latter is the 20-year old son of Jury Commissioner Earon and on Saturday he had an exciting encounter with a big bear that weighed 350 pounds. He broke the animals neck at the first shot, but Bruin showed fight and when he stood up on his hind legs Mr. Earon fired two other shots and Mr. Bear rolled over dead. The Earon party also killed a six-pronged deer that weighed 150 pounds, besides several rabbits and pheasants.

Snow Shoe Man Killed at Orvis.

Milton Housknecht, of near Snow Shoe, an employe of the Hayes Run Fire Brick company, of Orvis, was instantly killed at that place Thursday afternoon about 3.50 o'clock.

He was employed as driver of a horse and cart and had headed the cart with cinders, and in crossing the bridge which spans the creek, the cart getting too near the edge, was overbalanced.

The victim, in his efforts to prevent the horse from being thrown into the creek, was himself thrown head first into the water, a distance of ten or twelve feet, striking his head upon some large stones, causing instant death.

The horse and cart were also precipitated into the creek, but escaped serious injury.

The unfortunate occurrence was witnessed by several workmen, who went to the scene and recovered the body of the young man from the creek but it was found that he was dead, and that death must have been instantaneous. He was aged about 35 years, and as far as could be learned, was unmarried.

The body was prepared for burial and taken in charge by the I. O. O. F. of Snow Shoe, of which deceased was a member and taken there for burial.

At Loss to Discover Murderer of Farmer.

Up to this time Centre county authorities have not been able to run down the murderer of Josiah Dale of Centre Hall, who was shot in the back and killed Monday night November 12, while on his way home from his farm on the top of Nittany mountain to Centre Hall.

The authorities say they hold a clue that points to a certain man, while several other parties are looked upon as suspects, but nothing definite had been done. The shooting of Dale, coming so shortly after the shooting of the Auman boy from the top of a chestnut tree, has created a feeling of considerable fear for the safety of any man.

So far no satisfactory motive has been found for the murder of Dale. It is true he was a man who had much litigation, but as he was the loser most of the time, this is not considered a good reason for taking his life. That the shot could not have been accidentally fired was clearly proved at the post mortem.

Ralph Cox Killed on the Railroad.

A telephone message Wednesday from Johnstown states that Ralph Cox was killed on the railroad there Tuesday night. There were no particulars as to how the accident happen. Ralph Cox is a son of William Cox, of Coleville, and was seventeen years of age. He left Bellefonte about two weeks ago to accept a position as brakeman on the railroad. He was a member of the Coleville band and a popular young man.

The remains arrived in Bellefonte Wednesday evening on the 8:16 train and were taken to his parents home in Coleville.

Death of HenryGarner.

Henry Garner, one of the pioneer residents of Ferguson township, died at his home near Pine Grove Mills, Sunday afternoon at 2 o'clock after an illness of only a few hours. He was one of the old land marks of the township and had passed the 80th milestone in life's journey when death overtook him. He is survived by two sons and two daughters. The funeral took place Tuesday afternoon, interment at Fairbrooke cemetery. Rev. R. F. Campbell officiated.

State's Hoodoo Broken Saturday.

The State-Dickinson football game is now a thing of the past and State has won a hard earned victory by a score of 6 to 0, the single touchdown coming about the middle of the second half.

The game played by the two teams was entirely different, State tried about everything allowed by the rules while Dickinson worked mainly on the defensive, tried no forward passes and only one on-side kick. The policy of State, until she scored, was to get points, while that of Dickinson seemed to be to prevent State from scoring, all thoughts of scoring herself being a secondary consideration, After State had scored and was consequently in the lead, Captain Dunn ordered a punt on first down every time.

State was very successful with the forward pass and worked it probably a dozen or more times, gaining with it every time except three. Twice Captain Davis by his great height was enabled to reach up and bat the ball down before it reached the State man, and once he caught the pass.

Dickinson's defense made several stands that were really brilliant. Once she gained the ball on her own five yard line, once inside that line, once on her ten-yard line and once on the 15-yard line and booted the ball out of danger.

Twice State tried to drop a goal from the field, once going under the bar by less than a foot and the second going about the same distance outside. The only times Dickinson was dangerous was when Davis tried goals from placement, one at each end of the field but both failed.

The field was soft in spots, the air being warm enough to melt the frozen surface and bring the frost out while there was not enough sun or wind to dry it off.

State brought her band and about 500 rooters with her and they kept their team on edge with their songs and shouts of encouragement. Dickinson's 125 men secured the services of the Repasz Twelfth Regiment band and did yeoman work cheering the Red and White team. The big crowd was spectacular at all times, for everybody had a favorite, and as State's sympathizers largely outnumbered those of Dickinson they had much to shout over since State had the ball most of the time, But the Dickinsonians had numerous chances for being heard when the line held or some good play was made.

State overcame the third year boo-doo by winning this game. Twelve times have the two colleges met, and until Saturday's contest Dickinson has always won every third game.

The last four games between State and Dickinson have been played on the Seminary Athletic field and a glance at the following scores will show what a great quality of football they have given the people of Williamsport:

1903—State 0, Dickinson 6.
1904—State 11, Dickinson 0.
1905—State 6, Dickinson 0.
1906—State 6, Dickinson 0.

News from the Hunting Camps.

A crowd of Philipsburgers, consisting of Charley Smith, the butcher, Will Lloyd, Thos. Trafford, Dorsey Myers and others, located at Six Mile Run have killed two deer.

Woomer's Morrisdale club, at Black Moshannon, sent in last night a fine doe.

The Gillintown club, also located at Black Moshannon, have killed four deer.

The Gatesburg and Baileyville club, at Dayton dam, have two deer to their credit.

Reuben Comley and party, at the Rattlesnake, killed two deer the first day.

The Bellefonte club, while getting no deer as yet, have killed a fine big bear.

Aged Man's Miraculous Escape.

Stepping directly in front of an eastbound trolley car Michael Steinbacher, aged 71 years, of Nippenose Valley, was Wednesday night knocked down under the fender of the car on one of Williamsport's busy streets, and had a most miraculous escape from a horrible death under the merciless wheels. Steinbacher was first dropped into the fender, but an instant later was tossed out upon the rails and directly into the path of the grinding wheels. The fender passed over his body and the aged man lay prostrate and helpless with only the brake guard intervening between himself and eternity when the car was stopped.

Fire at Centre Hall.

Our sister town of Centre Hall seems determined to furnish excitement for the balance of the county. Last week they had a startling murder mystery to stir things up and late Saturday night or early Sunday morning a fire of mysterious origin destroyed three large barns in the heart of the town. It was between 12 and 1 o'clock Saturday night when the fire broke out and Centre Hall's fire facilities were taxed to their utmost to stop the rapid spread of the flames.

The following barns were destroyed, Mrs. Simon Harpers, John Spangler's, and Jerry Millers. No stock was destroyed fortunately. We did not learn the amount of the loss.

PERSONALS

Short But Newsy Personals of Those Who Come And Go.

Charles Lukenbach spent Sunday with friends in Philipsburg.

Francis E. Pray, of this place, was a visitor in Lock Haven on Thursday.

Mrs. B. C. Achenbach, of Lock Haven, is visiting friends in Bellefonte.

Harry McNaul, who has been solicitor for Bell Telephone Company for the past few months, has been promoted to the office of the General Superintendent at Harrisburg. Mr. McNaul has made many friends during his stay in Bellefonte and while they are sorry to see him leave town yet they are glad that his general wrothiness have secured for him this deserved promotion.

WM. A. McCOY.

A Former Centre Countian Dies at Cartright, Pa.

The funeral of the late Wm. A. McCoy Esq. took place at his late residence Wednesday last at 2 o'clock p. m. Interment at Brockport cemetery.

The large attendance of friends and neighbors who turned out to pay the last tribute of respect shows the high esteem and regards in which he was held. William Alexander McCoy was born July 15th, 1843 at Milesburg, Centre Co., Pa. He was the eldest son of Thomas and Jane (Hall) McCoy and was reared and educated in his native County. He served the people of Centre Co. as Deputy Sheriff from 1857 to 1860. When the war of the rebellion broke out in 1861, he was one of the first to respond to the call for troops. He enlisted in Company A. 2nd Pa. Volunteer Infantry, serving with that regiment through the three months campaign when he was discharged with honor.

July 17th, 1863 he enlisted in the U. S. Navy where he served until Aug. 9th, 1864, when he was again honorably discharged from service of the country. Eight days later Aug. 17th 1864, he reenlisted in the army and was this time assigned to the 45th Pa. Volunteers. With this regiment he served to the close of the war being mustered out July 17th, 1865, receiving a third honorable discharge from the Government.

After defending the flag on land and on sea he returned to his fathers farm in Centre Co. and followed the occupation of farming until 1869. At this time he engaged in the Hotel business in Philipsburg remaining there until 1870. He then went to Clearfield and embarked in the lumber business. In 1871 he came to Elk county, and followed lumbering in the woods until 1873. He then went to Dagus Mines and took charge of the Tipple as weigh boss for the North Western Mining and Exchange Co. remaining with that firm until 1878. While at Dagus Mines he married Mary Sullivan, July 5th, 1873, their union being blessed by 4 children, T. Edgar, Laura, Wm. A. Jr., and Marguerite.

In 1878 he moved to St. Marys where he accepted a similar position at Cascade Mines owned and operated by Hall and Kaul. In the fall of 1894 he moved to Cartright and took charge of Tipple at mine No. 2 of the Shawmut Coal Mining Company's operations. He has been 5 times elected to the office of Justice-of-the-Peace by his neighbors and fellow citizens and served the people in this capacity with dignity, integrity and honor.

For the last two years his health had failed rapidly so that it became necessary for him to give up his position on the Tipple. During the present year he suffered several attacks of apoplexy, to the last of which he succumbed about 2 o'clock a. m. Monday 12th inst.

The deceased is survived by his wife and two daughters, Misses Laura and Marguerite at home, two sons, T. Edgar of West Virginia: and Wm. A. Jr., of Pardous; three brothers Thomas of Bellwood; Charles, of Bellefonte and Frank of Monongahela City; and three sisters, Mrs. Nina Spotts, of Chicago; Mrs. Estella Thomas, of Milesburg; Mrs. Sadie Reed of Akron, O.

Among those present from out of town were, W. A. McCoy, Jr., and wife, of Pardous; Mr. Chas. McCoy and Miss Estella McCoy of Bellefonte; Mrs. Mary McCoy and W. H. McCoy of Renovo; Mr. Wm. Copp of St. Marys; Peter Connally and wife of Bymedah.

INSTITUTE CLOSES.

Adjourned at Noon Friday—A Very Successful Week's Work.

The Centre County Teacher's Institute closed a successful weeks work at noon Friday. The attendance during the week has been very large and the greatest interest prevailed.

The officers elected for the ensuing year are Vice-Presidents, C. L. Gramley, of Rebersburg; and C. D. Koch, of South Philipsburg; Secretary, Gertrude Weiland of Boalsburg.

The devotional exercises this morning were conducted by Rev. Richard Crittenden, of Bellefonte. After a song service an address was made by Prof. A. Reist Rutt on "Geographical Influence in American History."

Dr. Charles Miller then delivered a talk on "How to Teach a Great Poem." The closing period of the morning was occupied by Dr. Henry Houck.

The institute closed with the singing of "America" by the Institute and the benediction by Rev. Crittenden.
